**ABOUT US**

# Working hard to make it easy for you

Our ambition is to make business management as easy as feeling hungry when looking at this pizza.

For the past five years, we've been serving up POS solutions that simplify the lives of food and other retail businesses and elevate their service game. You can think of us as the caffeine boost your business needs to thrive!

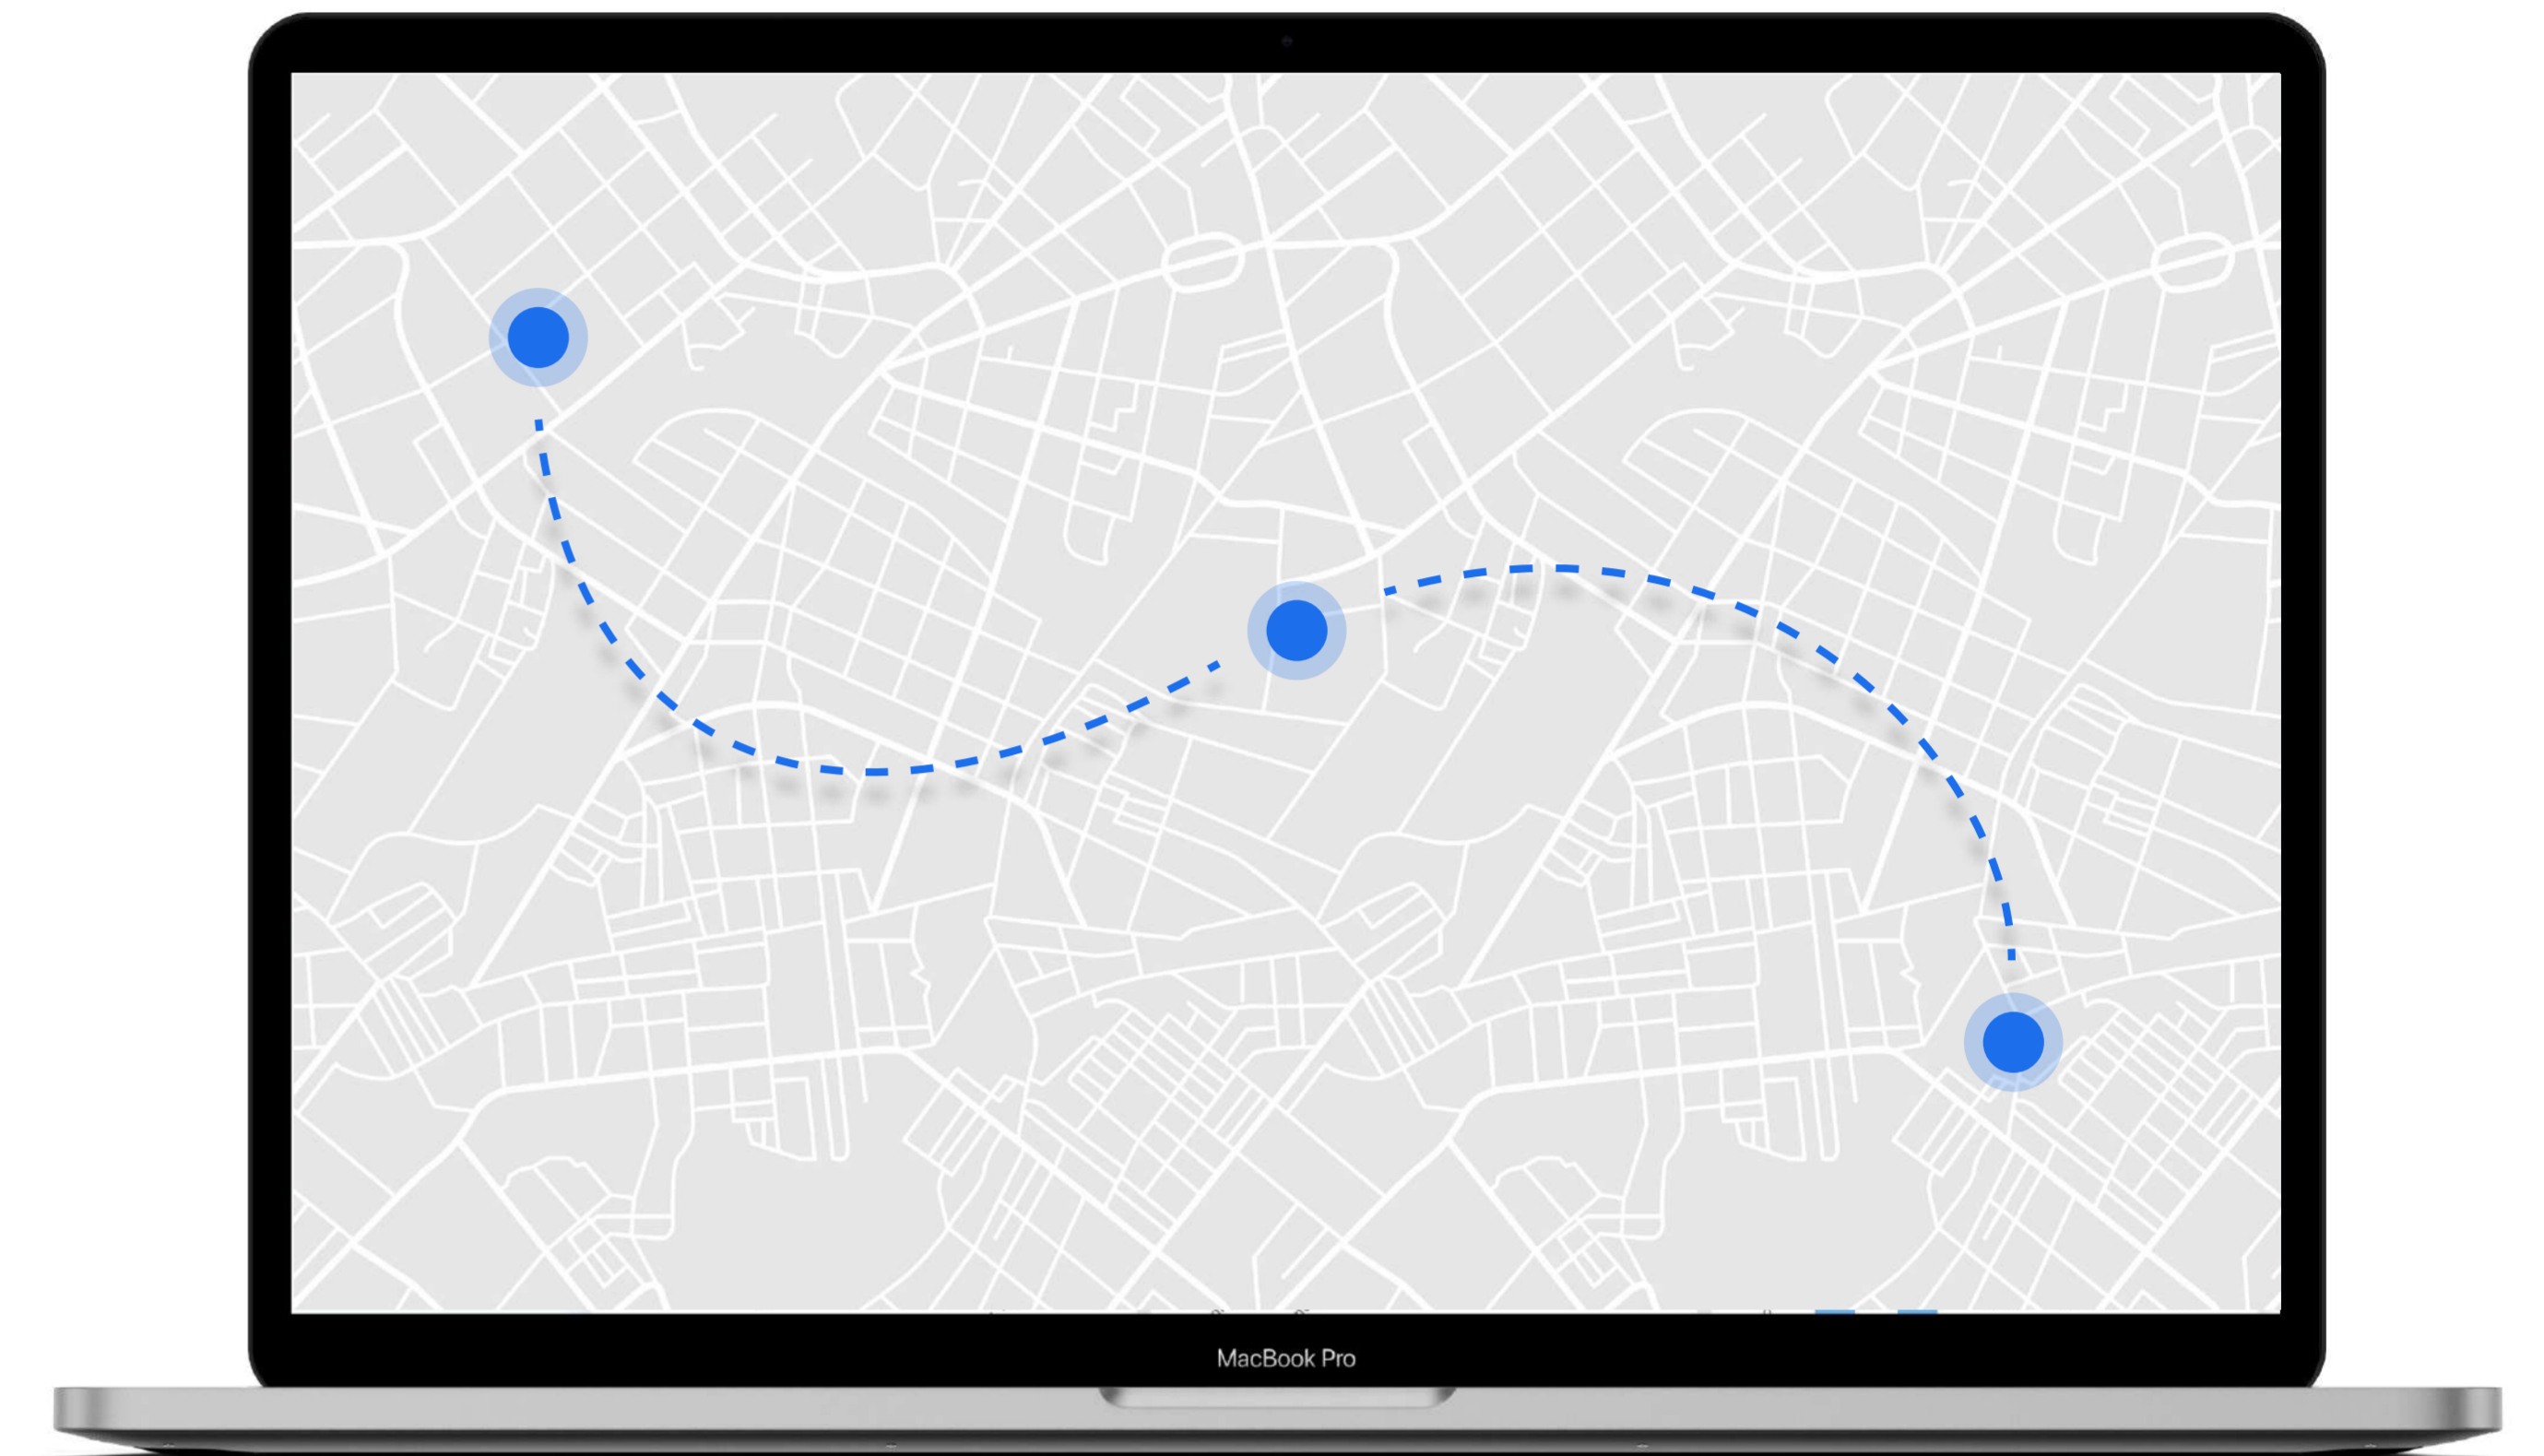

# Expanding rapidly beyond borders

We're not just a local hotspot either – our system is used in Turkey, Saudi Arabia, Kazakhstan and beyond.

Our recipe for success is simple: we listen to our customers like a chef listens to their sous-chef. We take their feedback and turn it into new features and products to better serve them.

So, whether it's a small business or a bustling restaurant, Clopos can be the secret ingredient to business success.

**SOLUTIONS**

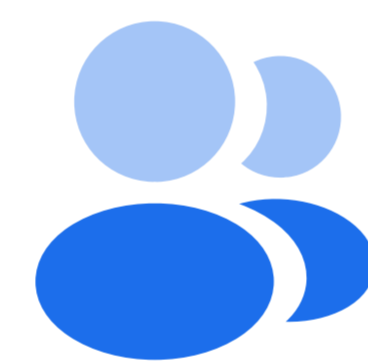

# Modernizing business management

We develop our services with our customers in mind. All of our solutions are:

## Top-notch technology

Businesses stay ahead of the curve by adopting cutting-edge technology solutions that accelerate the performance

## User friendly

Easy to use interface allows even new users to quickly and efficiently navigate the Clopos system, saving valuable time and resources

## Easily accessible

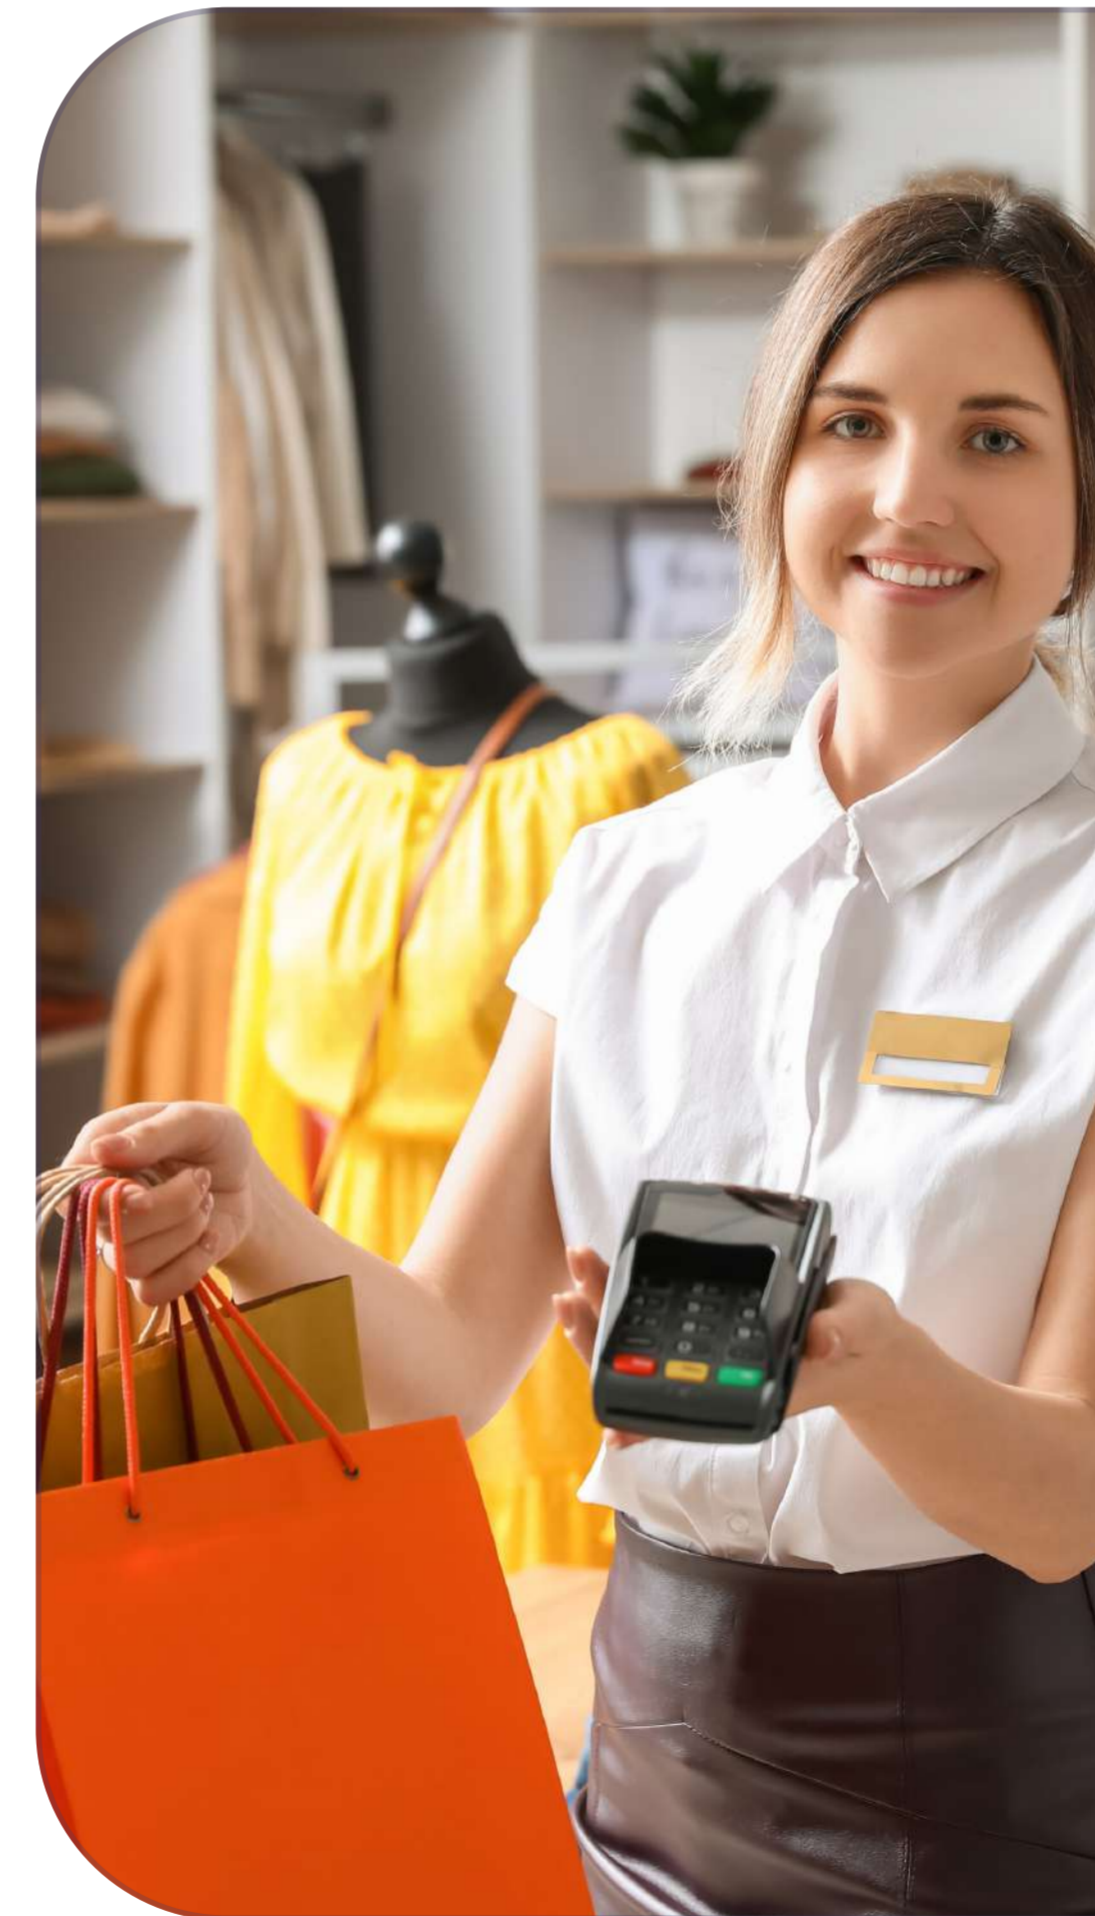

Cloud-based system enables management of business operations from any device or platform of choice

# Service areas

Our POS and management solutions can be used in various service areas like:

-  Coffeeshop
-  Pizzeria
-  Fastfood
-  Restaurant & Cafe
-  Night club & Bar

-  Clothing store
-  Gift store
-  Bookstore
-  Gaming center
-  Jewelry store

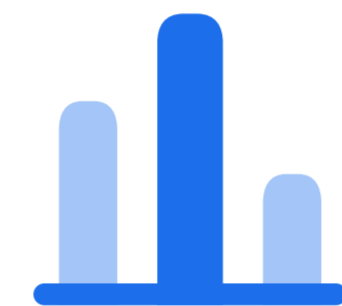

# Our easy-to-use solutions

## Cashier POS

A modern POS system that accelerates sales processes

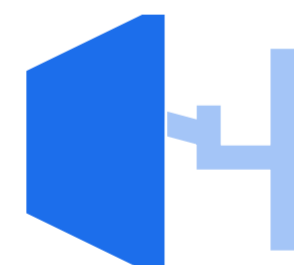

## Back office management

A software to keep all business related processes under control

## Clopos Manager App

An app providing observation of business even when far away

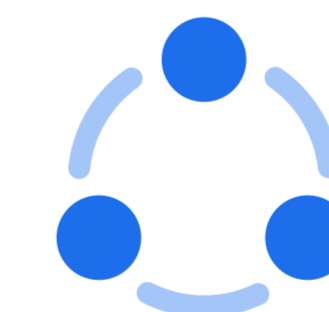

## Kitchen Display System

A system digitizing the processes in the kitchen

## QR menu

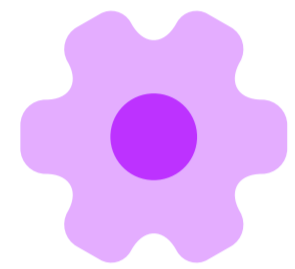

A QR code enabling customers to open menus and order via phones

## Multi-location management

A system allowing the management of all business branches at once

# Bespoke features for business success

## Centralized order system

Order acceptance and tracking can be centralized in a single system across all sales channels

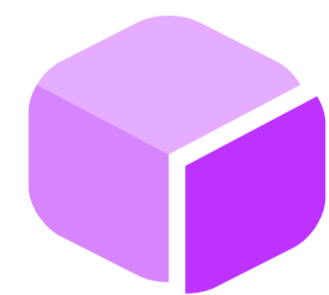

## Reports & Analytics

Businesses achieve growth faster with automatically generated in-depth reports and data analysis

## Accounting & Payrolls

No extra software is needed to control finances as we provide support at all stages of the process

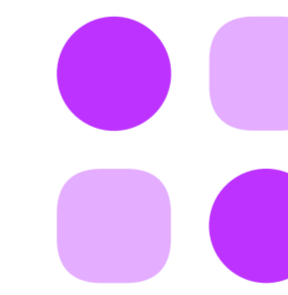

## Inventory management

Efficiently managing inventory levels helps reduce waste, improve productivity, and streamline operations

## CRM & Loyalty programs

Businesses attract repeat customers and increase sales by implementing different programs that cultivate customer loyalty

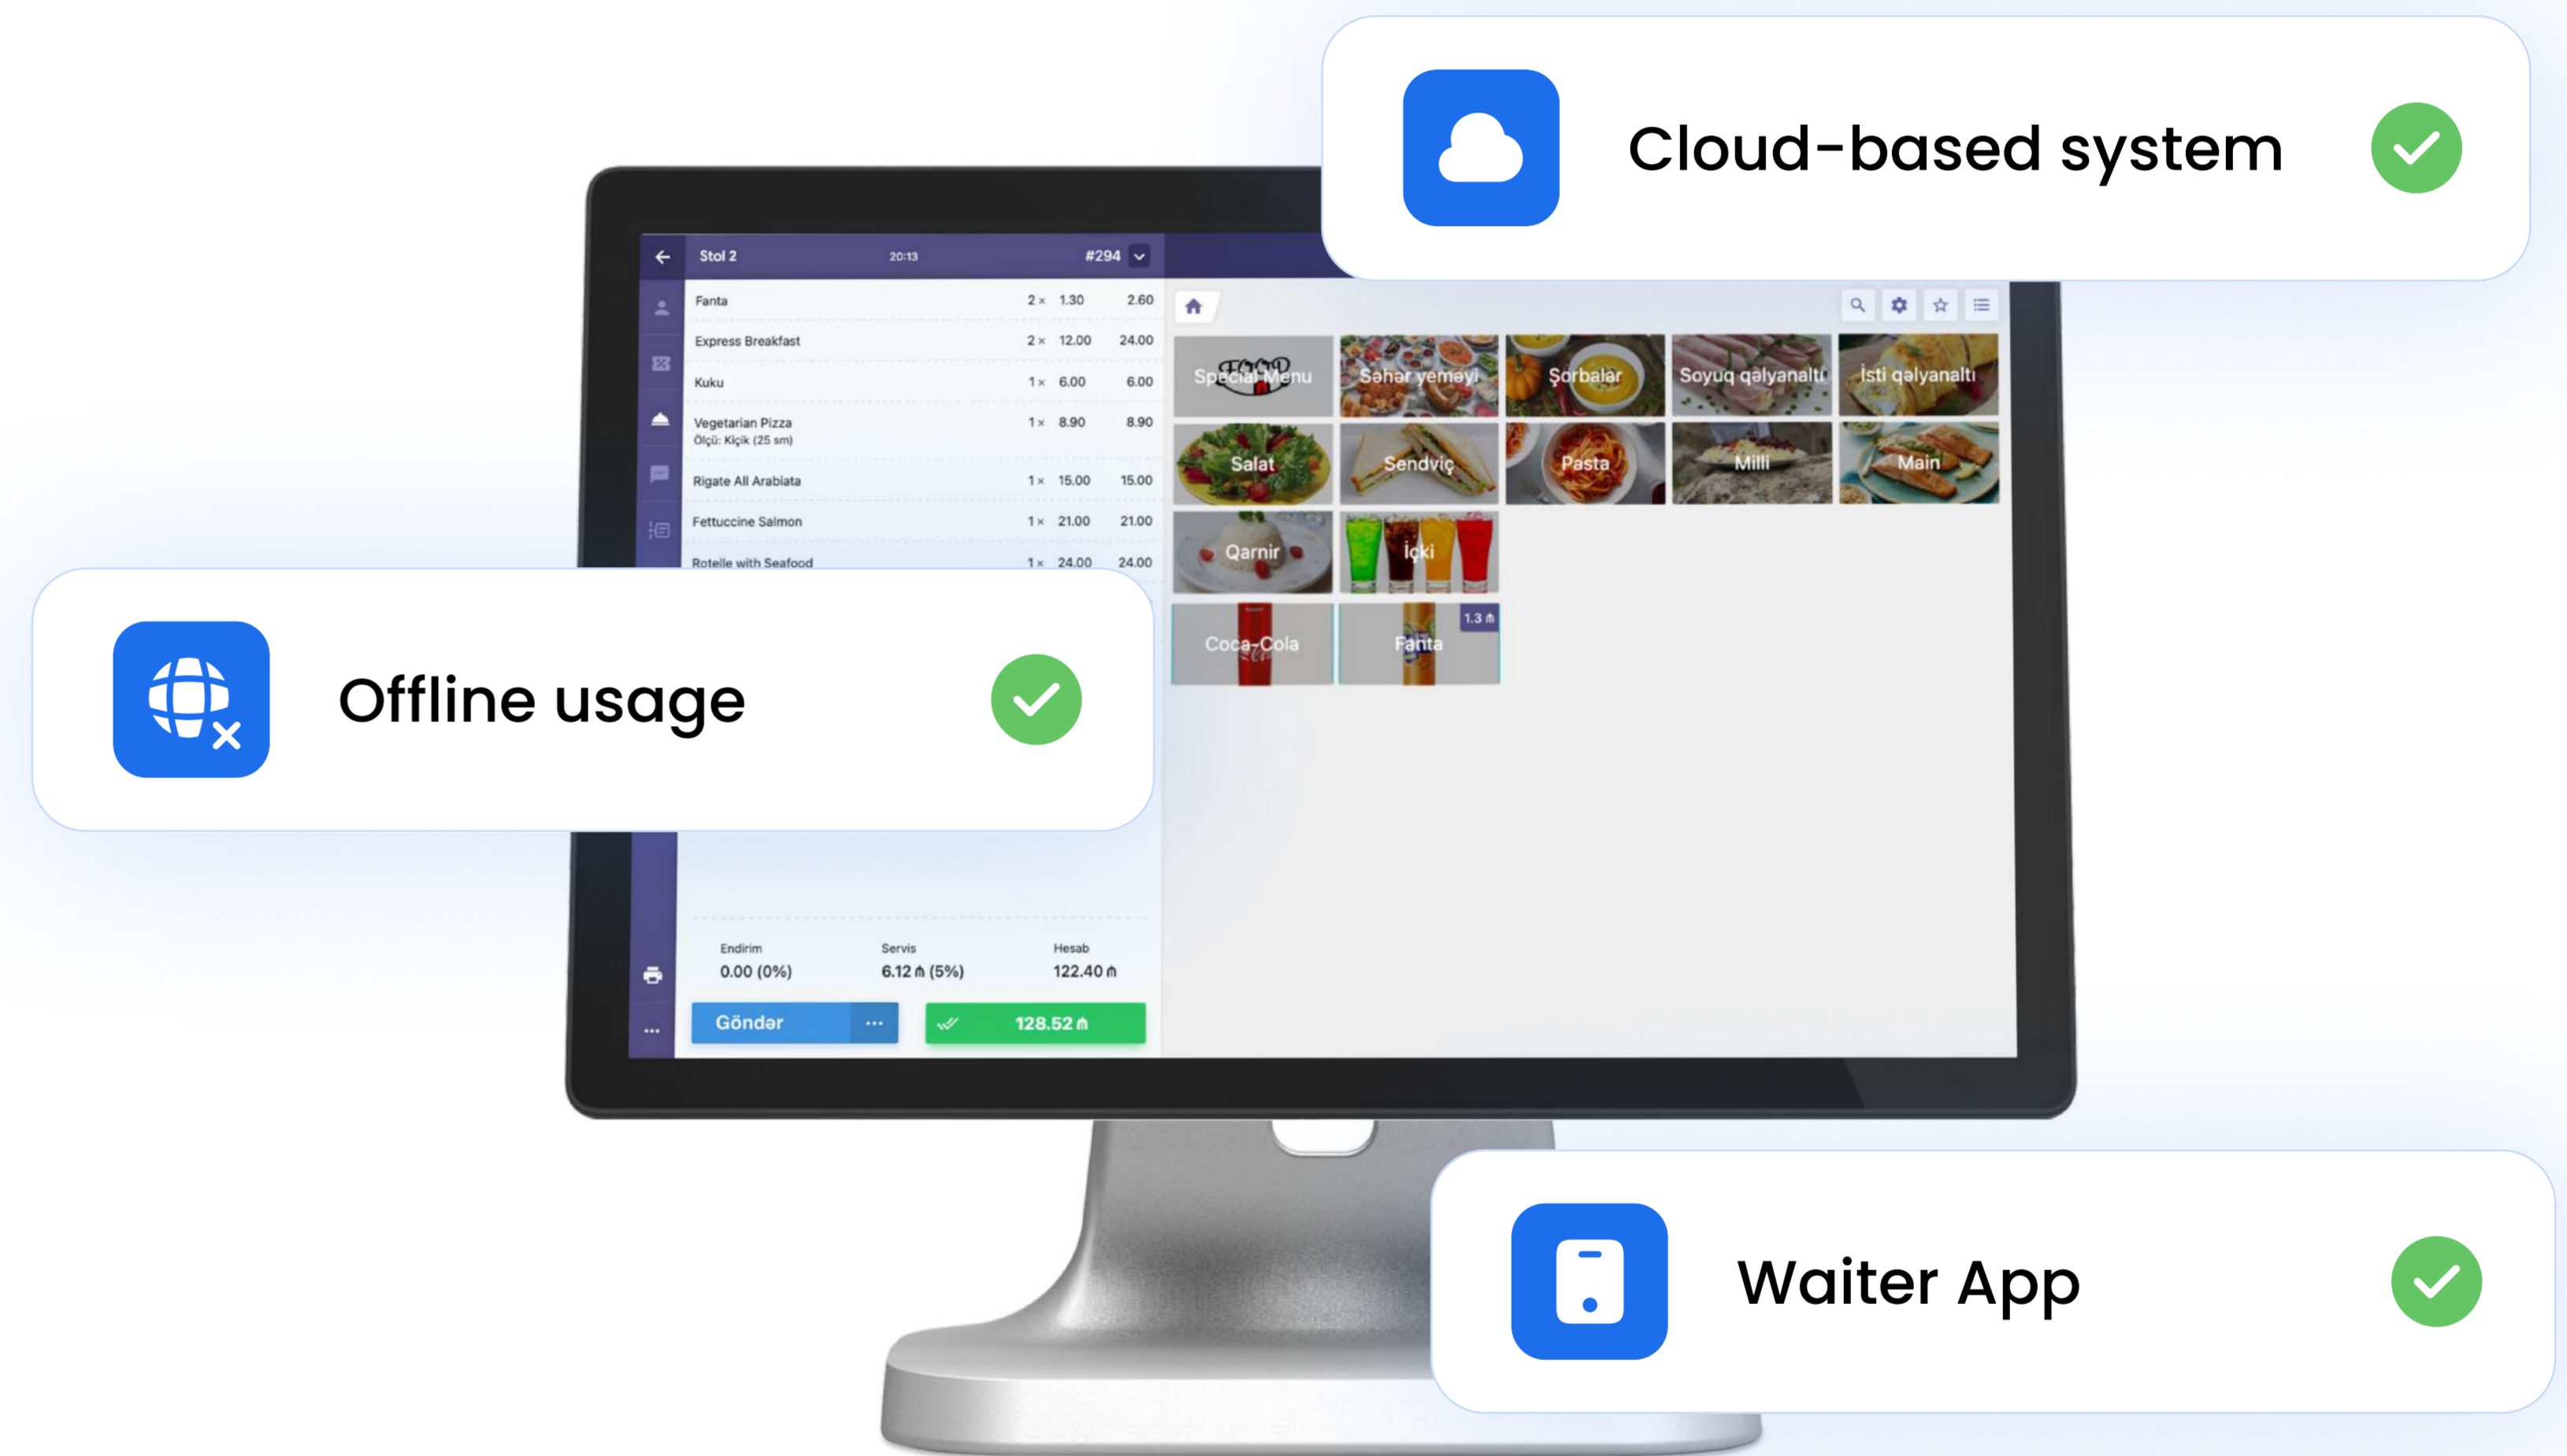

## Integration

We enable businesses to access a range of other solutions through easy integration to suit their unique needs

# Accelerated serving speed

Whether at the table, on the spot, or for delivery, this modern POS system streamlines the ordering process and reduces wait time

- ✓ Waiters quickly enter and modify orders, track order statuses, and view customer information
- ✓ Waiters send orders directly to the preparation address, ensuring that orders are fulfilled quickly and accurately
- ✓ System provides helpful notifications, like updates on order preparation, prioritization, and completion, to make the process smoother

# Control over employees

Entrepreneurs and managers keep track of operation like which employee is performing which task at any given time

People in charge decide which employees can access which functionalities, and modify their decisions at any time or place.

Workers efficiently and conveniently carry out specific tasks within the scope of the permissions managers grant them

# A personalized sales process

Customizing the sales process is possible with advanced features

- ✓ Combo menu creation
- ✓ Complementaries
- ✓ Special modifiers
- ✓ Product selection
- ✓ Inventory management
- ✓ Product addition
- ✓ Portion choices
- ✓ Weight-based sales
- ✓ Product discounts
- ✓ Barcode compatibility

## Custom payment methods

The flexibility to accept any payment method from customers

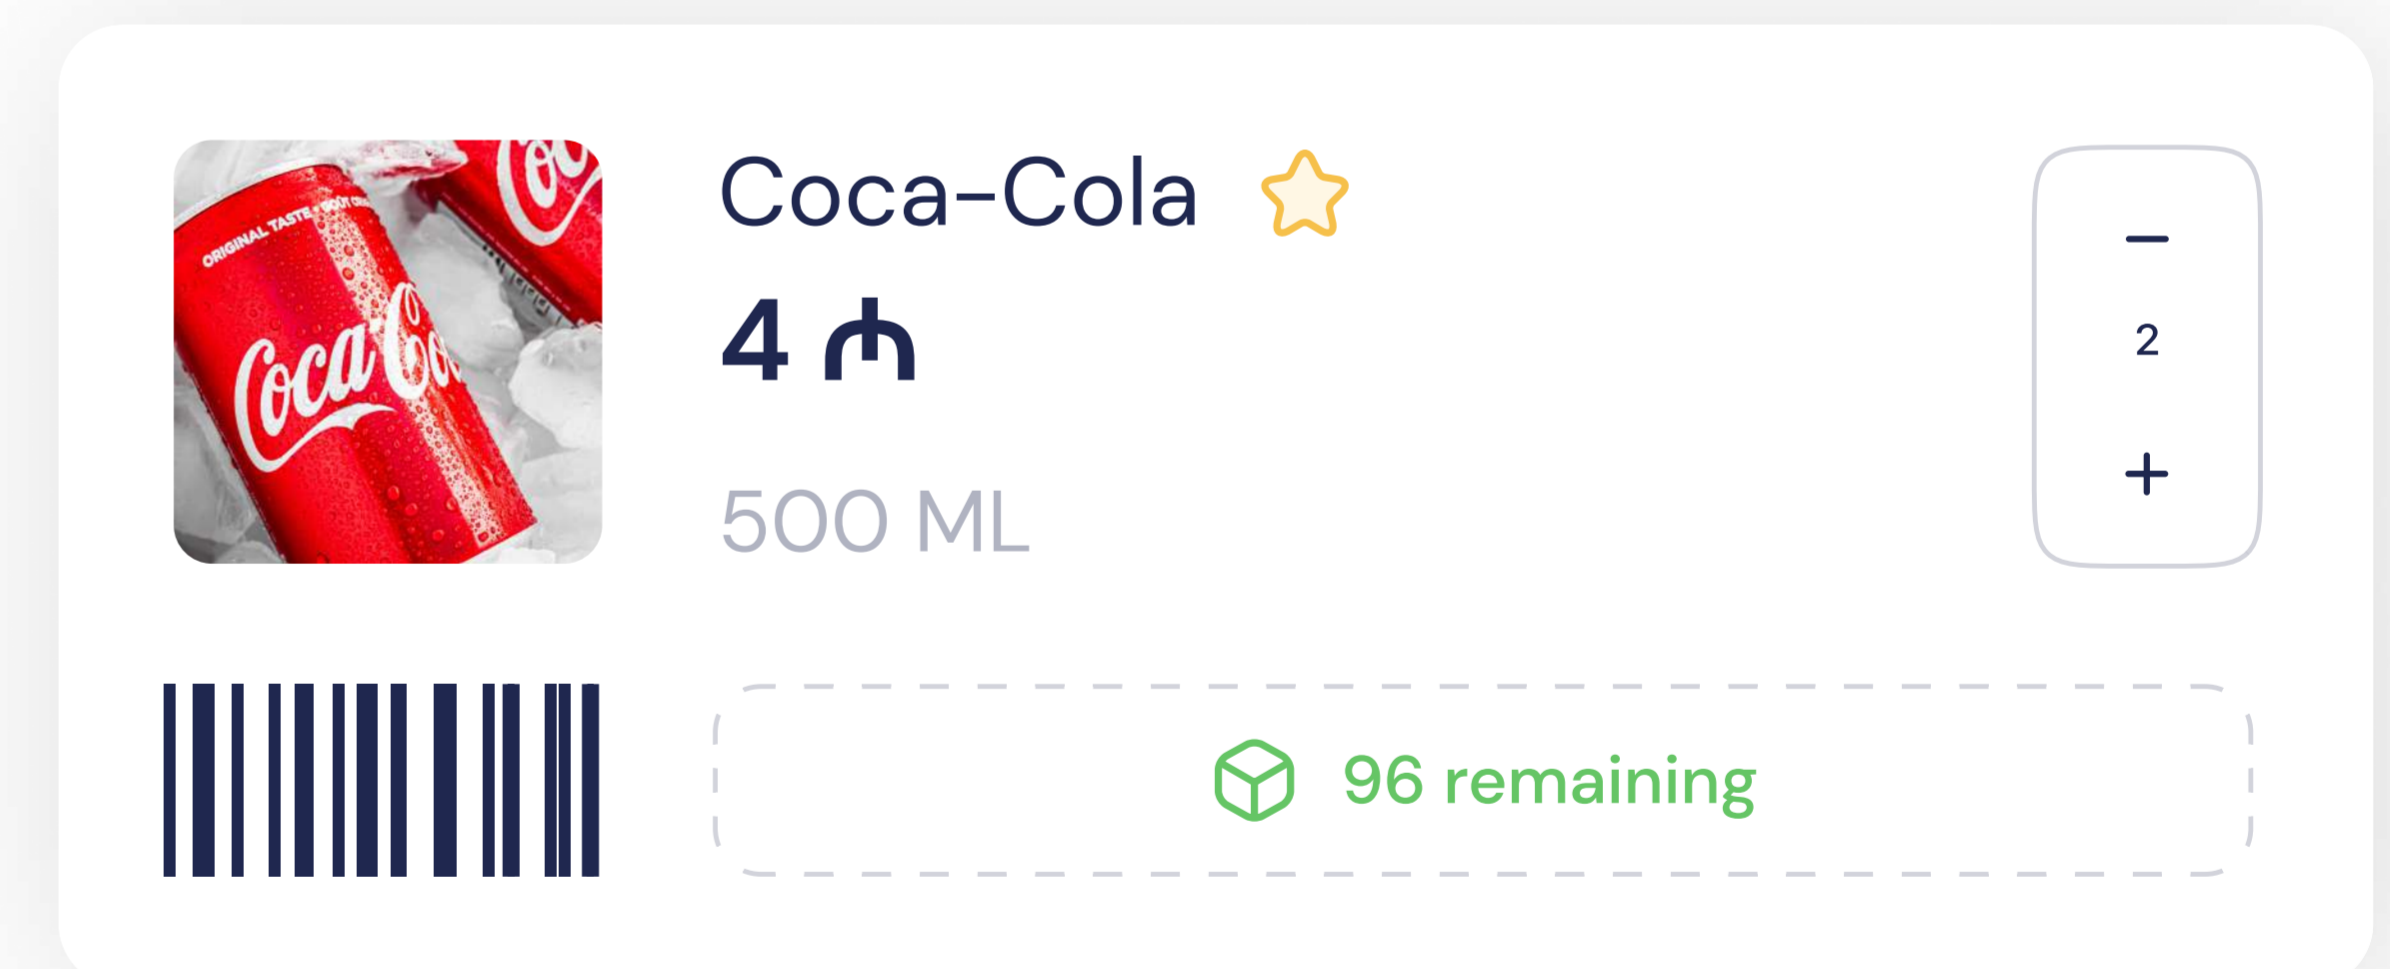

## Custom sales methods

The flexibility to accept orders from custom sales channels

# Detailed receipts and sales reports

- ✓ Efficiently tracking and managing all receipts is easier with detailed information such as who opened them and for how long they were open. Additionally, archived receipts can be accessed even when offline, ensuring that important information is never lost

The screenshot shows a receipt management interface with a top navigation bar containing 'Open', 'Archive', and 'Offline archive' tabs, along with a '+ Yeni sifariş' button and user information 'Demo Sahi...'. Below the navigation bar are filters for 'Sales methods', 'Staff', 'Hall', and 'Table'. The main content area displays three receipt entries:

- #245698**: Main Hall • Table 5, 7 min., Murad Hasanov (+994507040104), VIP Customer, Total: 130.44 ₼. Status: Not sent 2, Reopened, Pre-check 2. Note: Should not be spicy.
- #245698**: Delivery, 05:49, Murad Hasanov, Ilkin Ibrahimli, VIP Customer, Total: 46 ₼. Status: Pre-check 2. Note: Vegan-friendly, Address: AZ1025, Baku, Azerbaijan. Next to the cafe.
- #245698**: Wolt • WT200, 05:49, Murad Hasanov, Total: 25 ₼. Status: Pre-check 2. Note: Contactless payment, please.

The screenshot shows a detailed sales report for 'Pizzeria Mozzaa'. The report is for the date 'November 29th, 2022' from '06:00' to 'November 30th, 2022' at '06:00'. The report type is 'N/A'. The report includes a summary of sales and payment methods:

Category	Item	Value
Sales Summary	Subtotal	150
	Gift	0
	Service	0
	Discount	0
	Product return	0
<b>Total:</b>		<b>150</b>
Payment methods	Cash	150
	Card	0
Sales methods	On-site	150
	Takeaway	0

- ✓ Comprehensive reports (such as X, Y, etc.) allow businesses to monitor their finances with ease. They include all the details about receipts based on any time range preferred, whether it's by day, month, or any other interval

# Accelerated service with the Waiter App

Waiters can receive orders through this mobile app, make adjustments as needed, and track order preparation status in real-time, thereby preventing time wastage

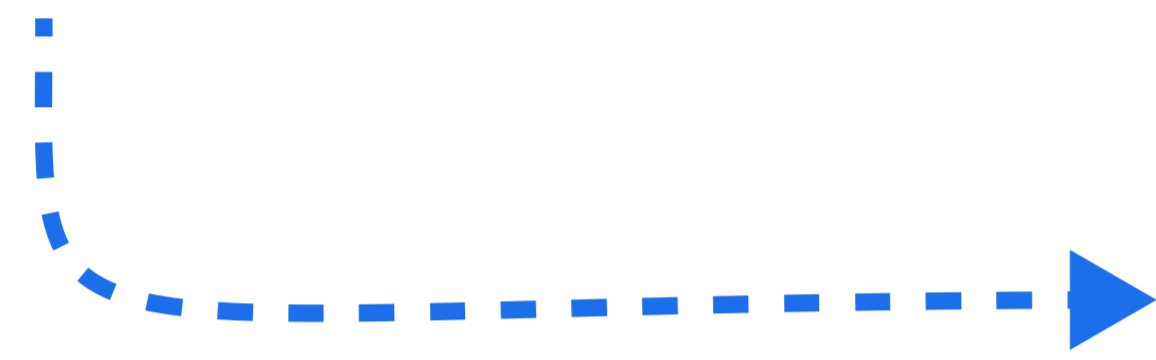

- ✓ Flexibility to take orders even when far away from the main restaurant
- ✓ Direct transfer of orders to the kitchen without the need to physically going there
- ✓ Elimination of the need for paper tickets and manual order-taking

## Integration with aggregators

Effortlessly receive orders from external platforms like Wolt directly into your system

**Wolt**

**Bolt Food**

Murad Hasanov	4.2	4.6
Kamran Eyubov	4.2	4.6

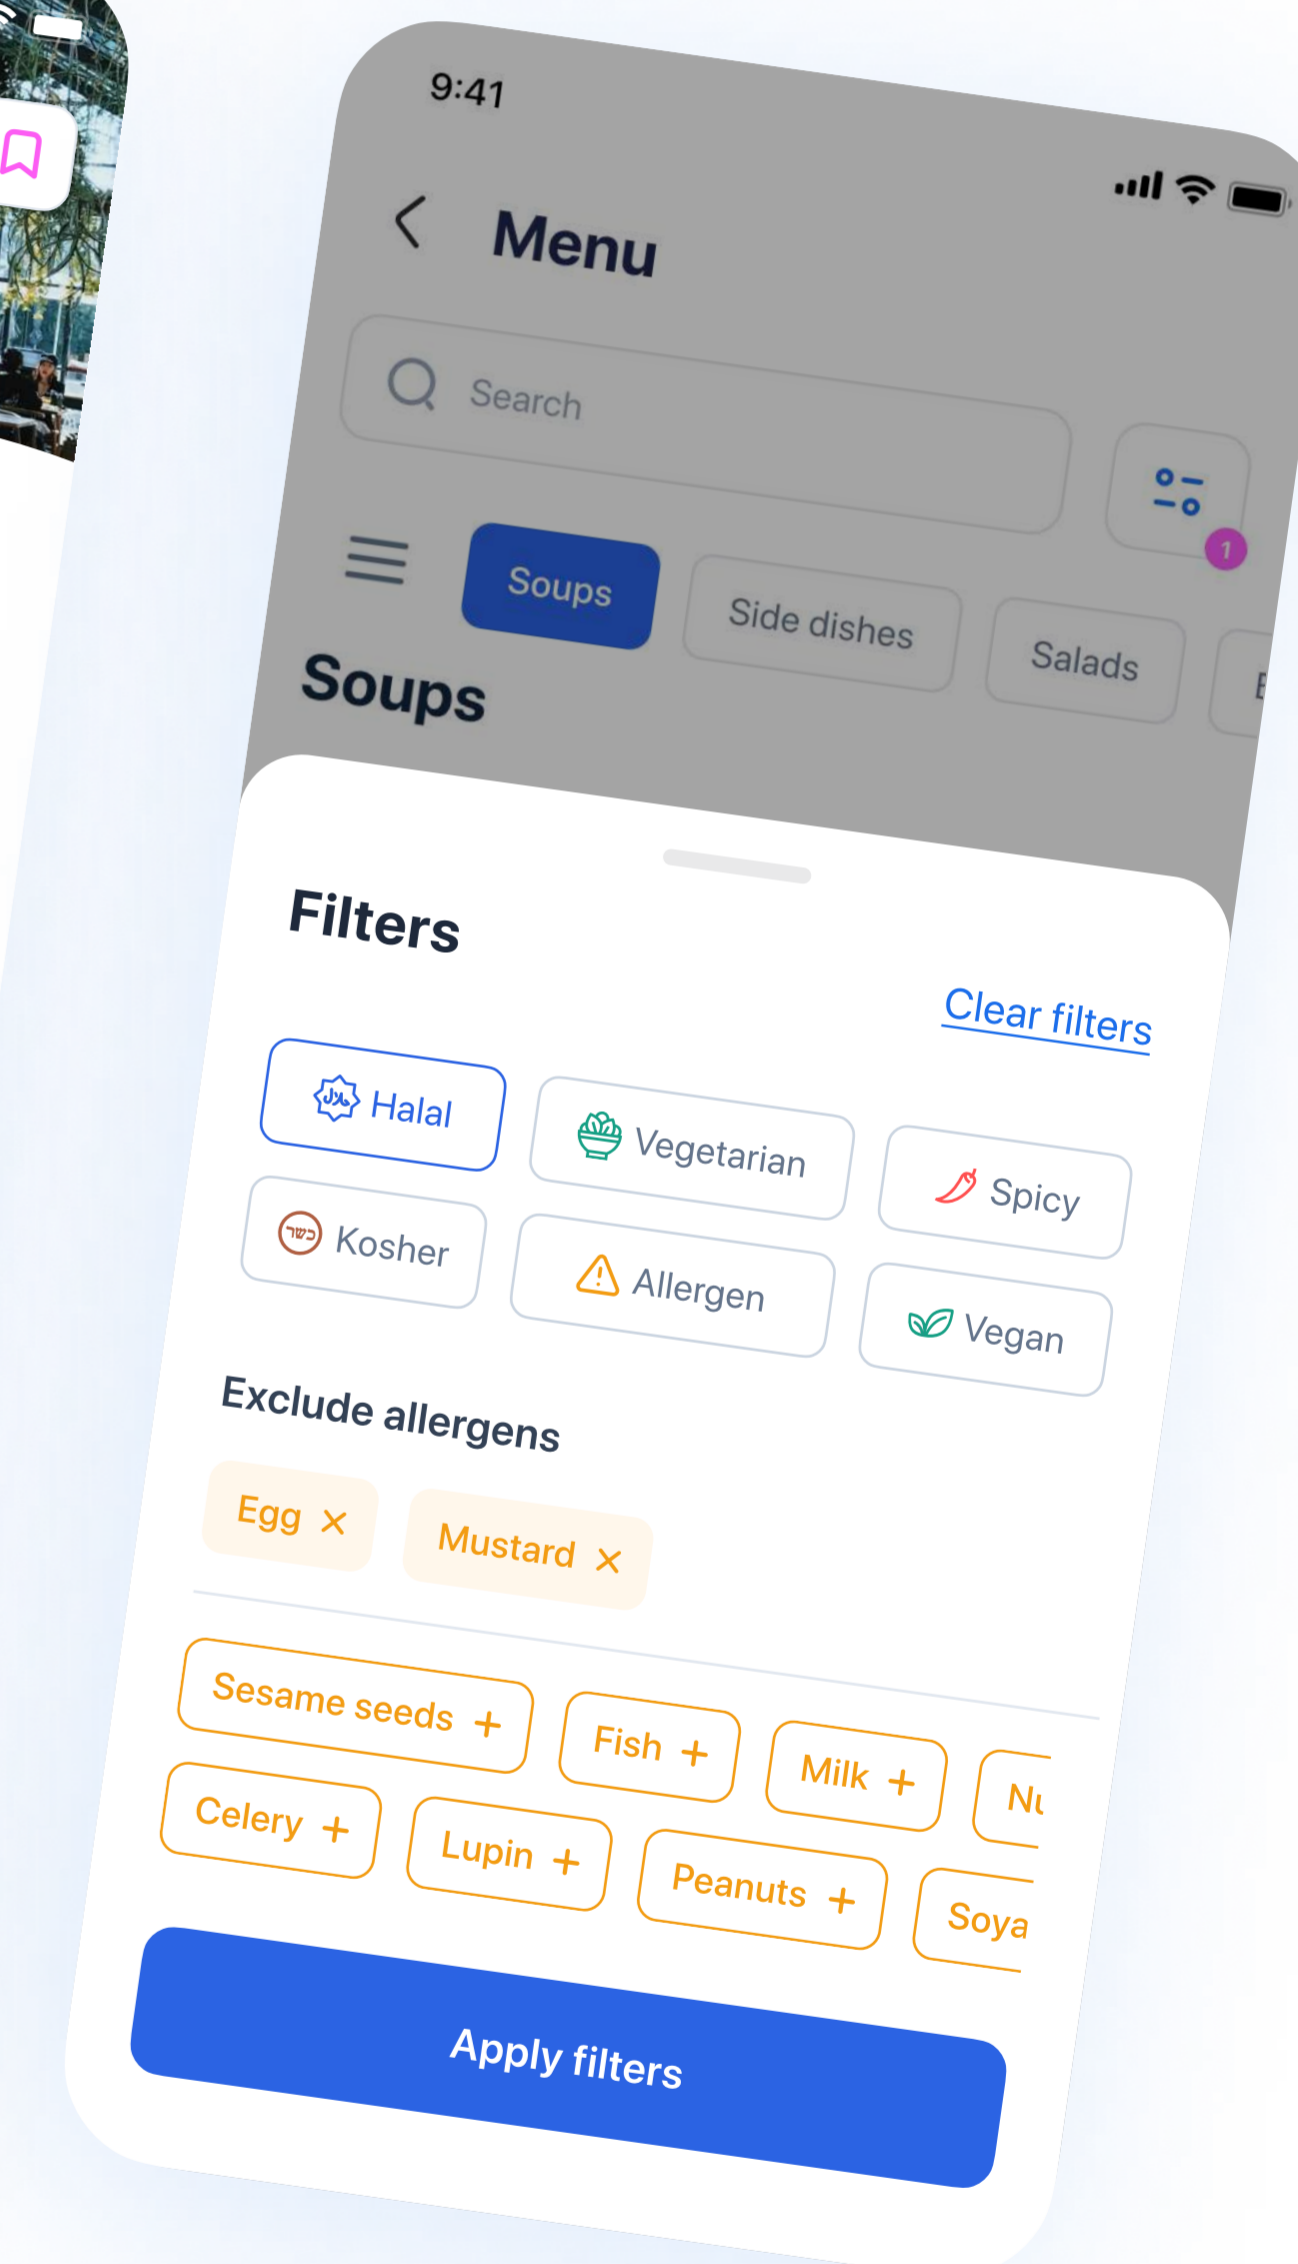

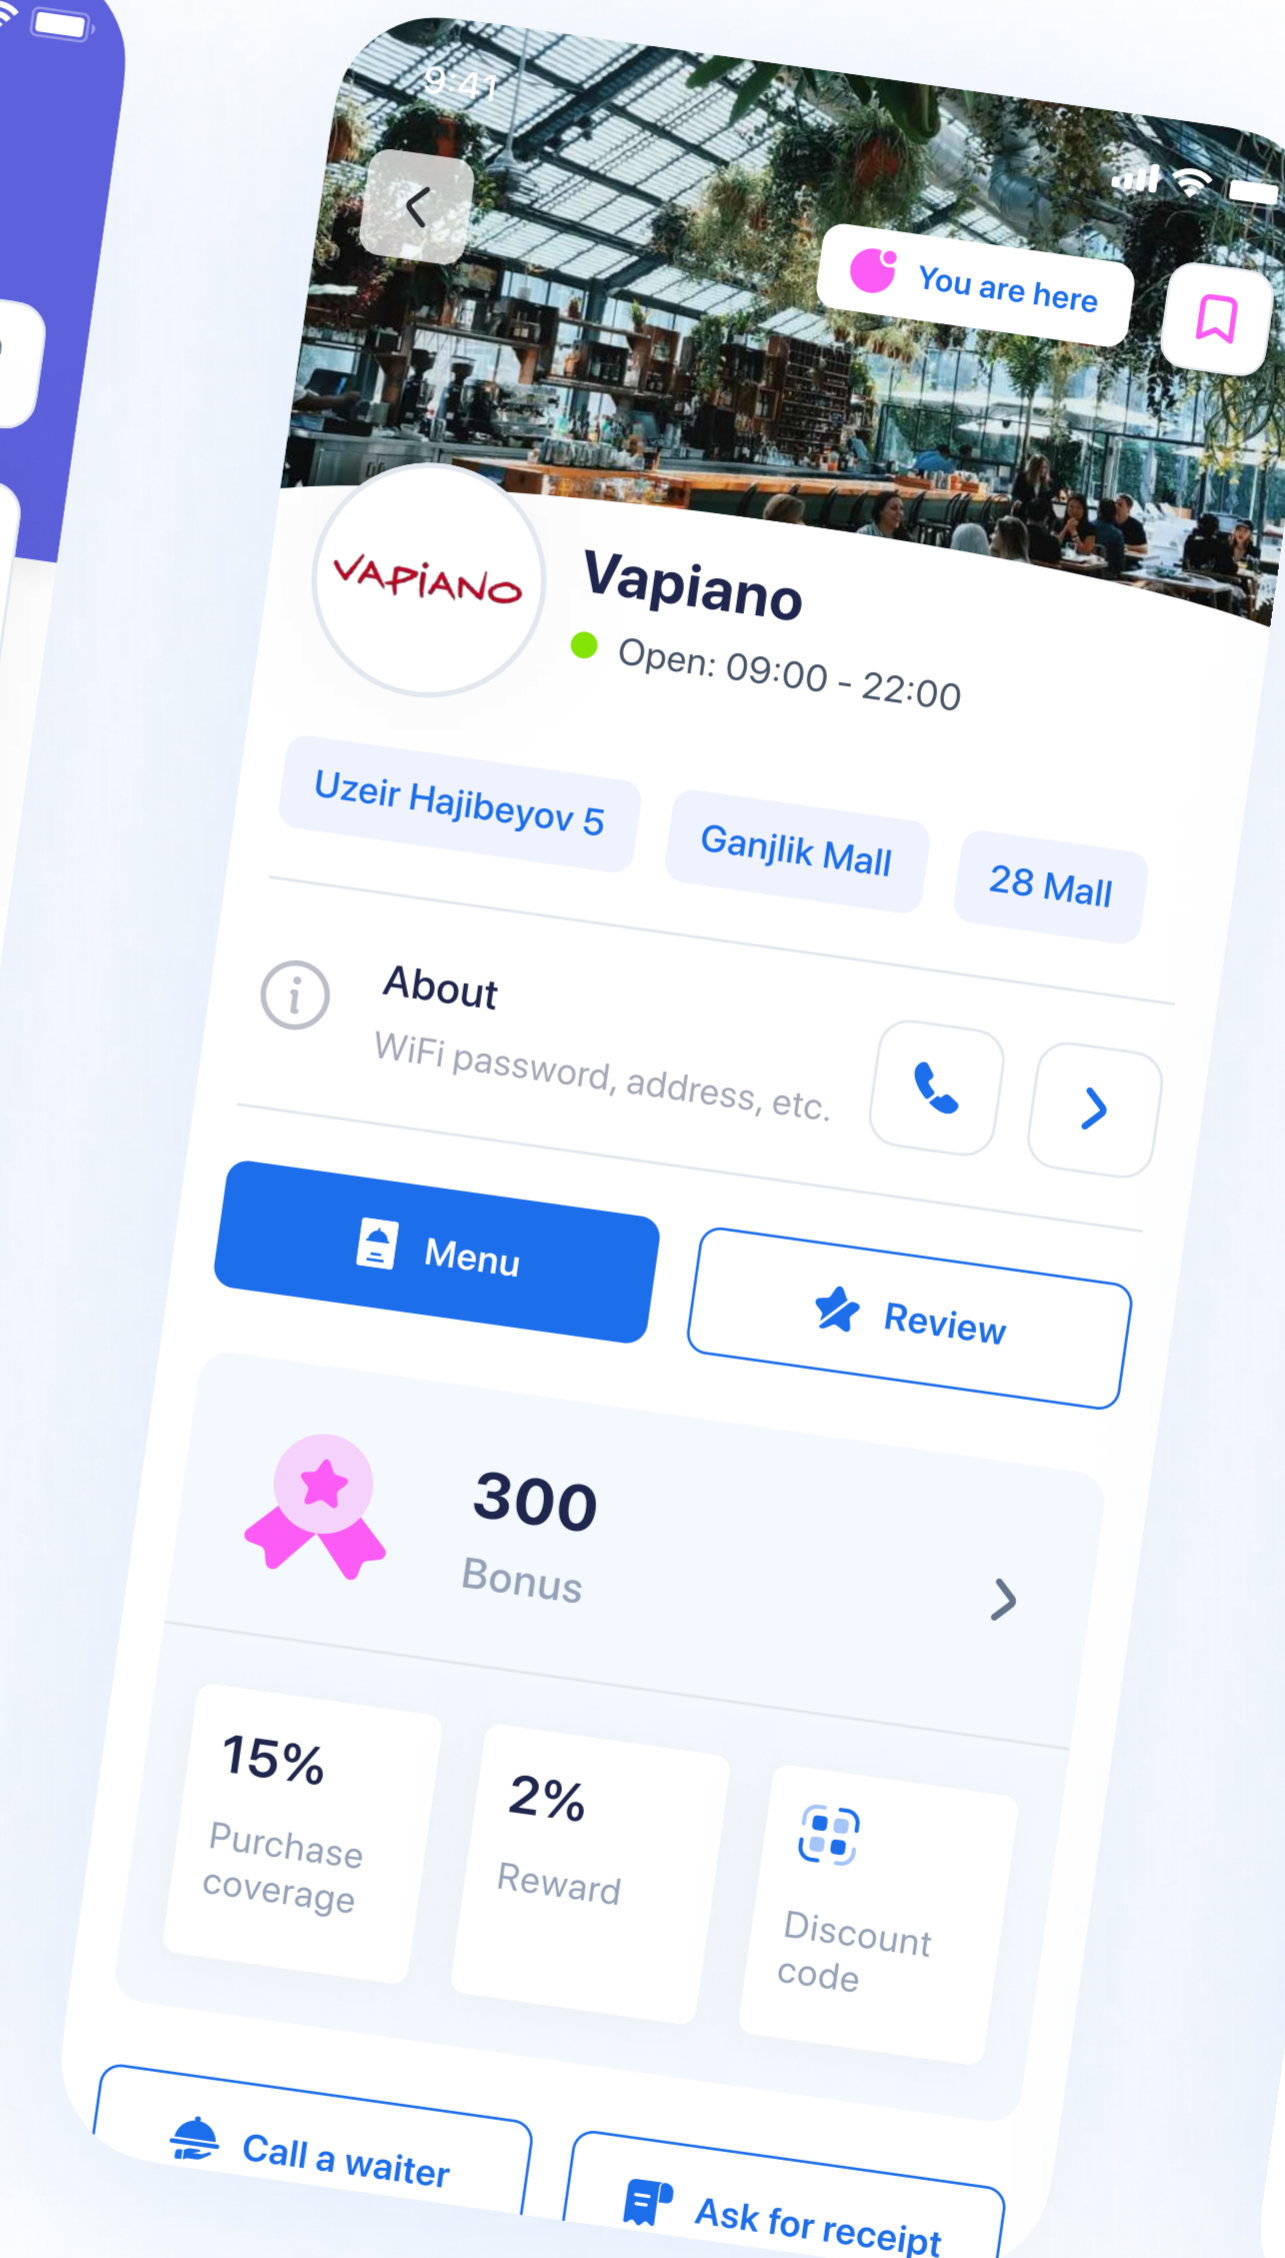

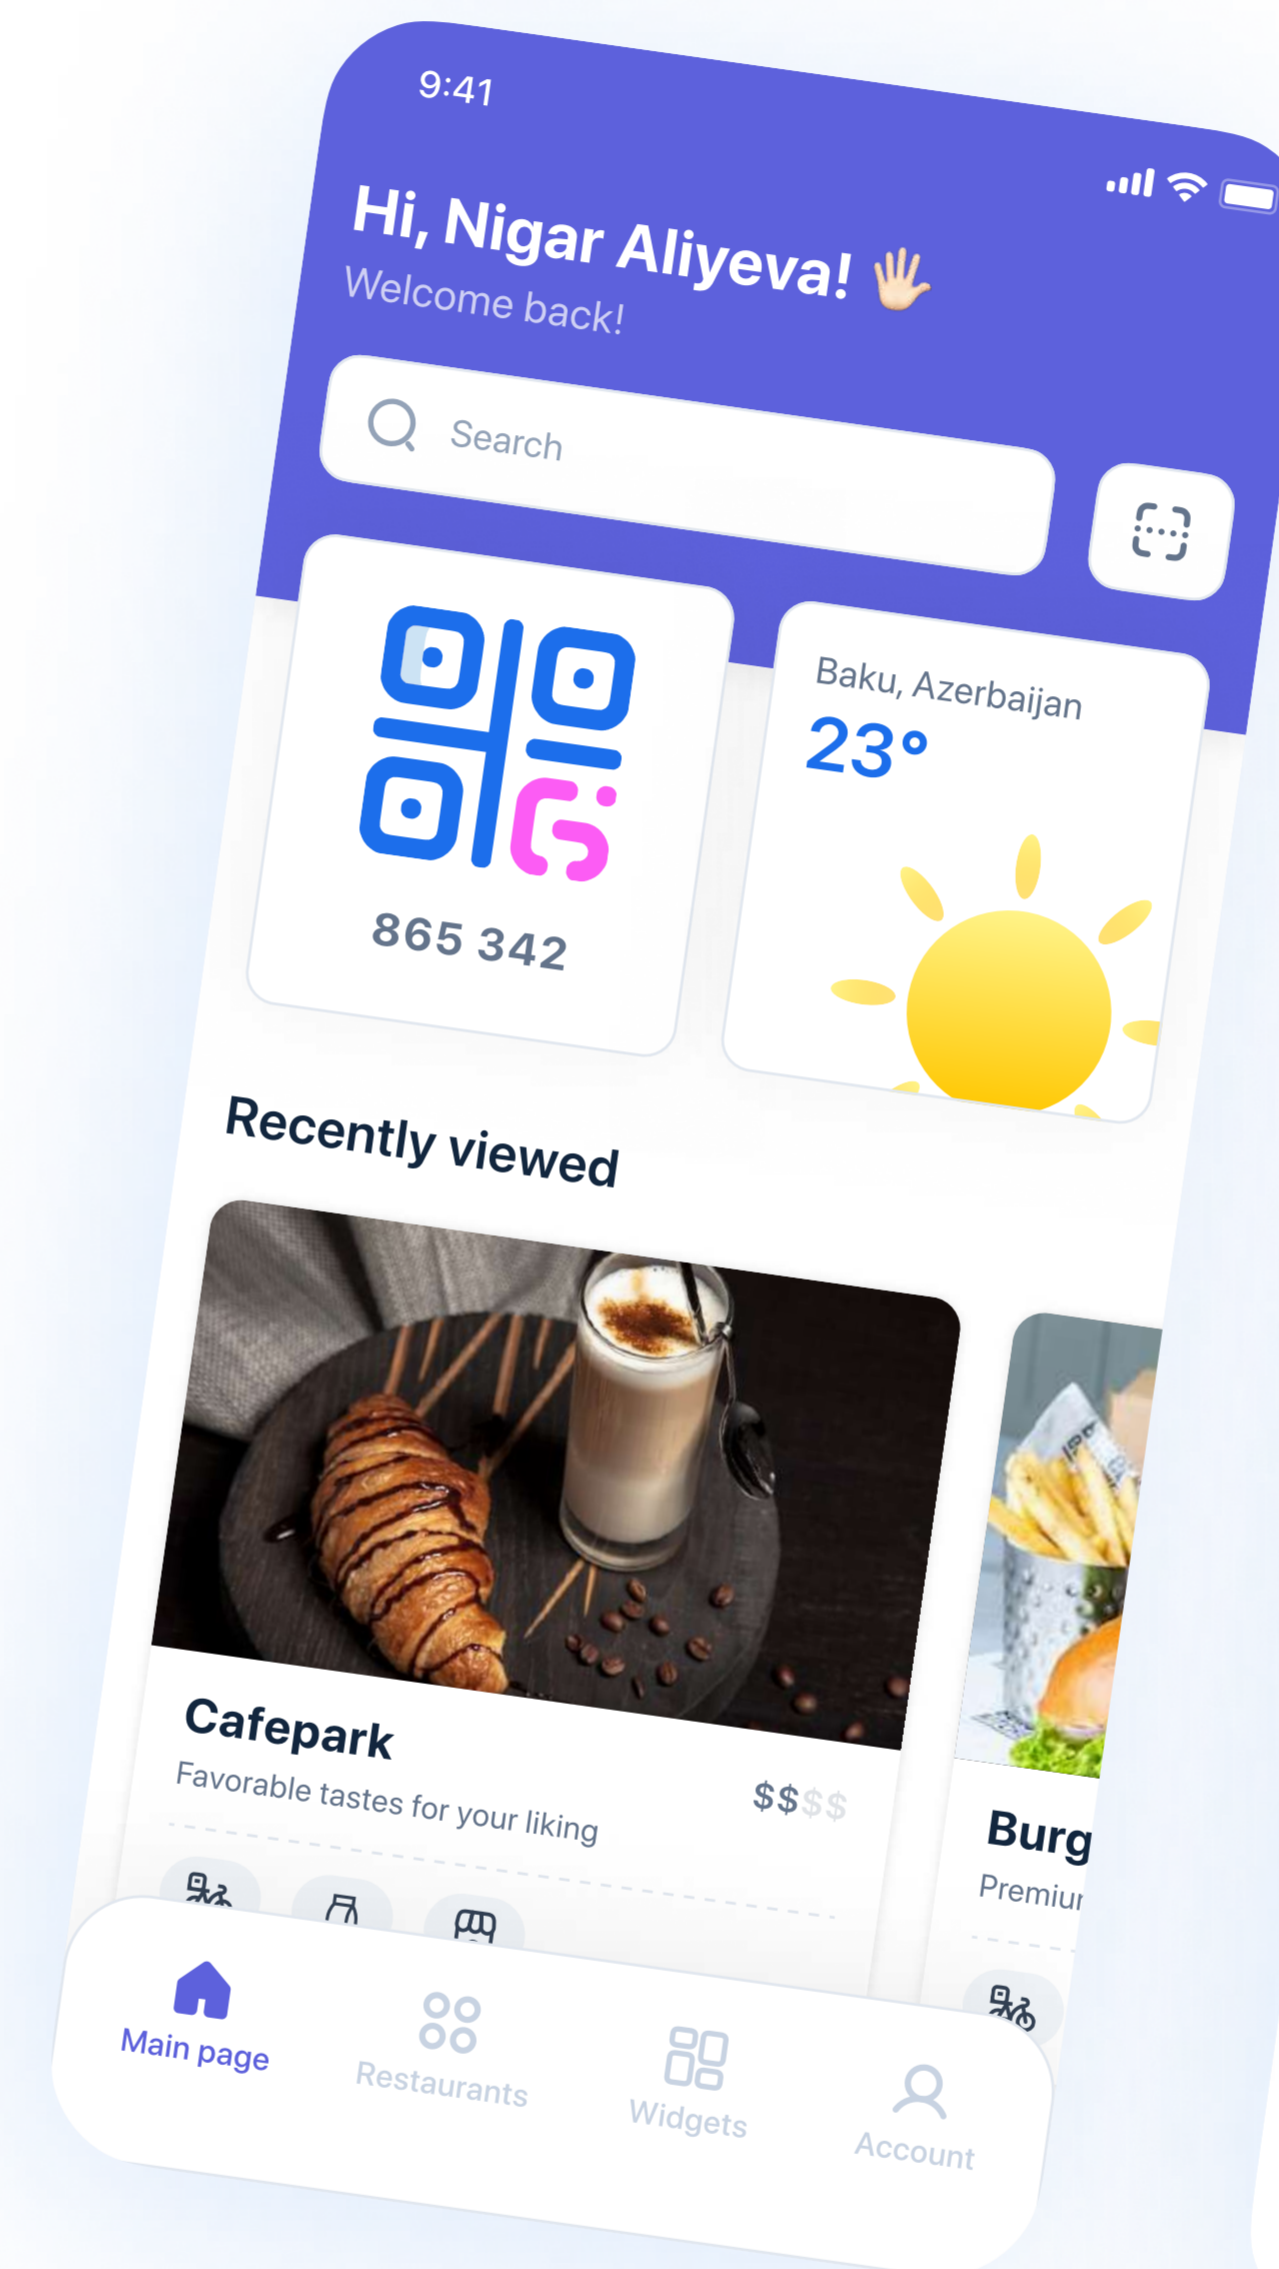

## Offer special priorities to your loyal customers

- ✓ Loyalty card
- ✓ Special discounts
- ✓ Bonus balance
- ✓ Special campaigns
- ✓ Cashback program

# Special app for loyal customers

Improve your loyal customers' experience with a special app designed for them

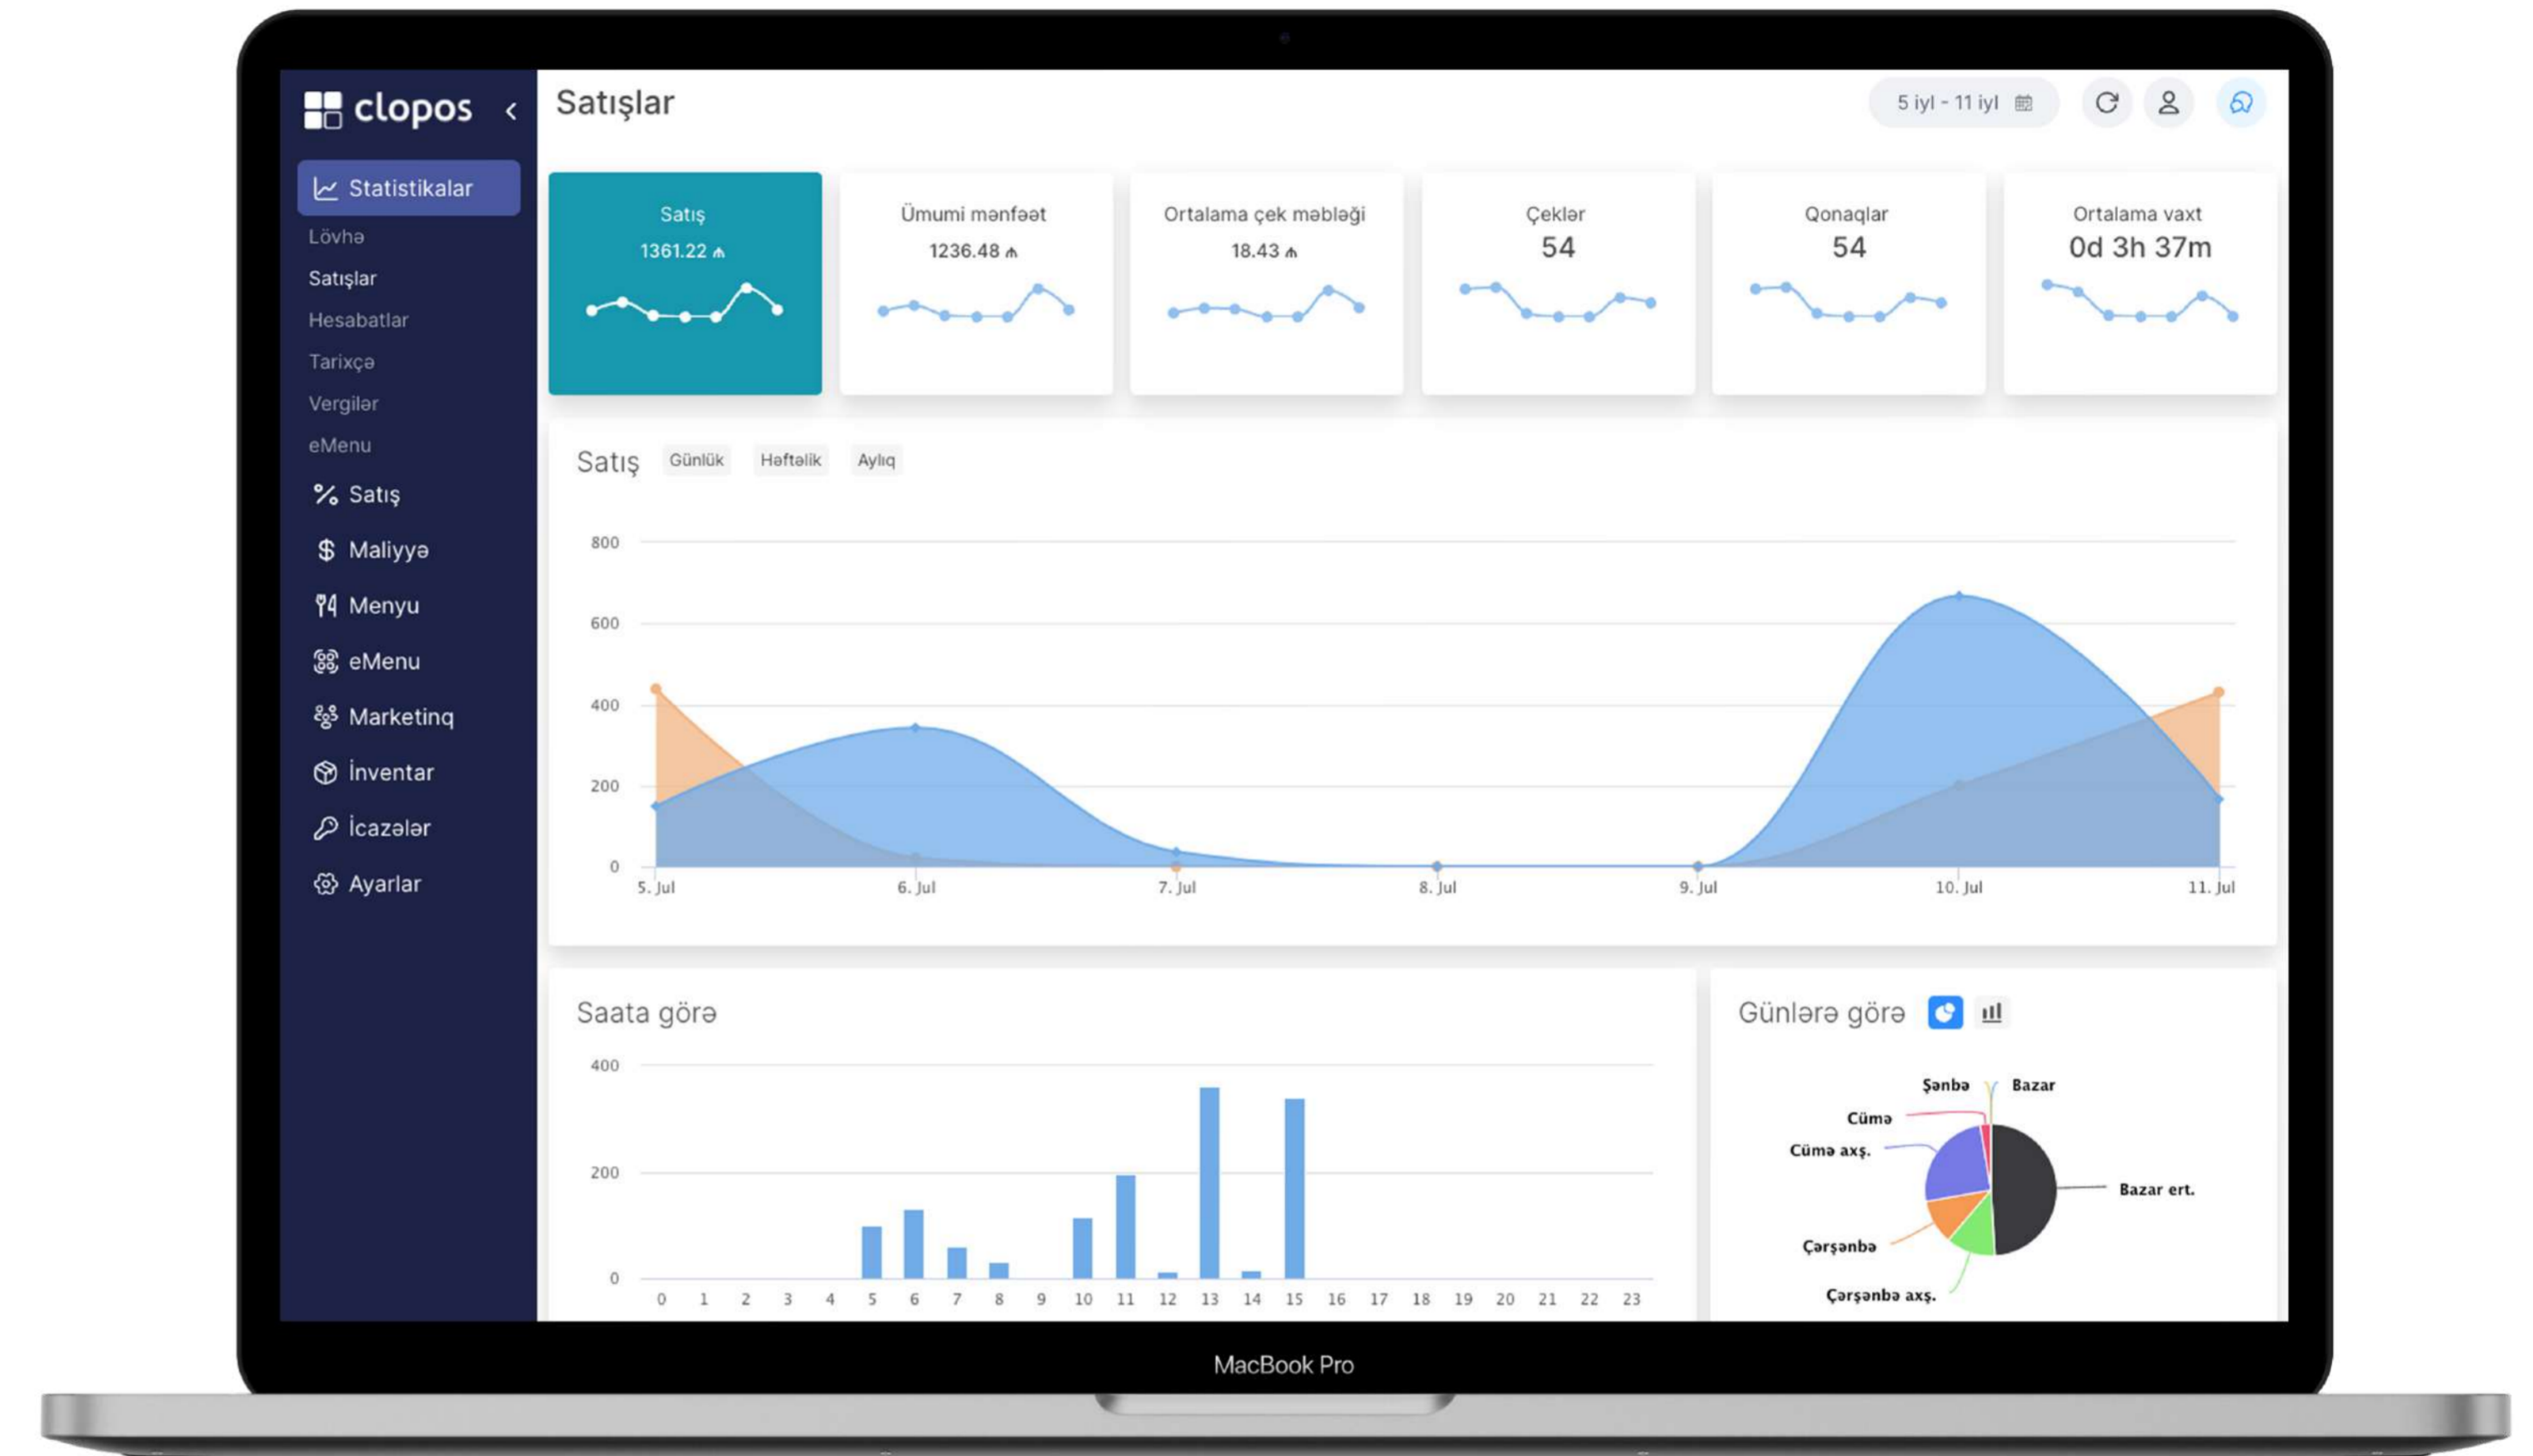

- ✓ Easy privilege tracking for rewards, bonuses, and discounts
- ✓ Access to restaurant menus for easy viewing and ordering
- ✓ In-app payments for added convenience
- ✓ The ability to provide feedback on service or food

# Comprehensive management

At home, on the road, on vacation... Clopos POS gives the ability to easily manage business operations from anywhere with an internet connection

- ✓ Storage management
- ✓ Financial reports
- ✓ Payroll system
- ✓ Employee supervision
- ✓ Detailed receipts
- ✓ Product settings

Real-time reports

A clear view of businesses with instant and insightful reports

Multi-branch management

Ability to manage all branches from a single centralized system

# Advanced inventory management

Tracking and managing inventory levels in real-time gives an opportunity to optimize stock levels, and reduce waste while improving overall efficiency

Products	Time	Supplier	Account	Amount	Status

 Multiple select 

## Product composition

Recording the compositions with the amount of ingredients used in each product for systematizing the correct amount of usage and keeping costs under control

# Personalization options

## Single choice modifier

Adding a single modifier to products such as a size or a specific ingredient option to better address customers' specific preferences

Modifiers		Margarita Pizza			
Single choice					
Name	Image	Cost	Price	Default	
Small (25 cm)		12 €	15€	<input checked="" type="radio"/>	
Medium (30 cm)		14 €	18€	<input type="radio"/>	
Large (35 cm)		17 €	22€	<input type="radio"/>	

Modifiers		Margarita Pizza			
Several choices					
Ingredients	Name	Image	Gross	Cost	Price
Mozarella, g	Mozarella		100g	2 €	3 €
Olives, g	Olives		120g	1.5 €	4 €

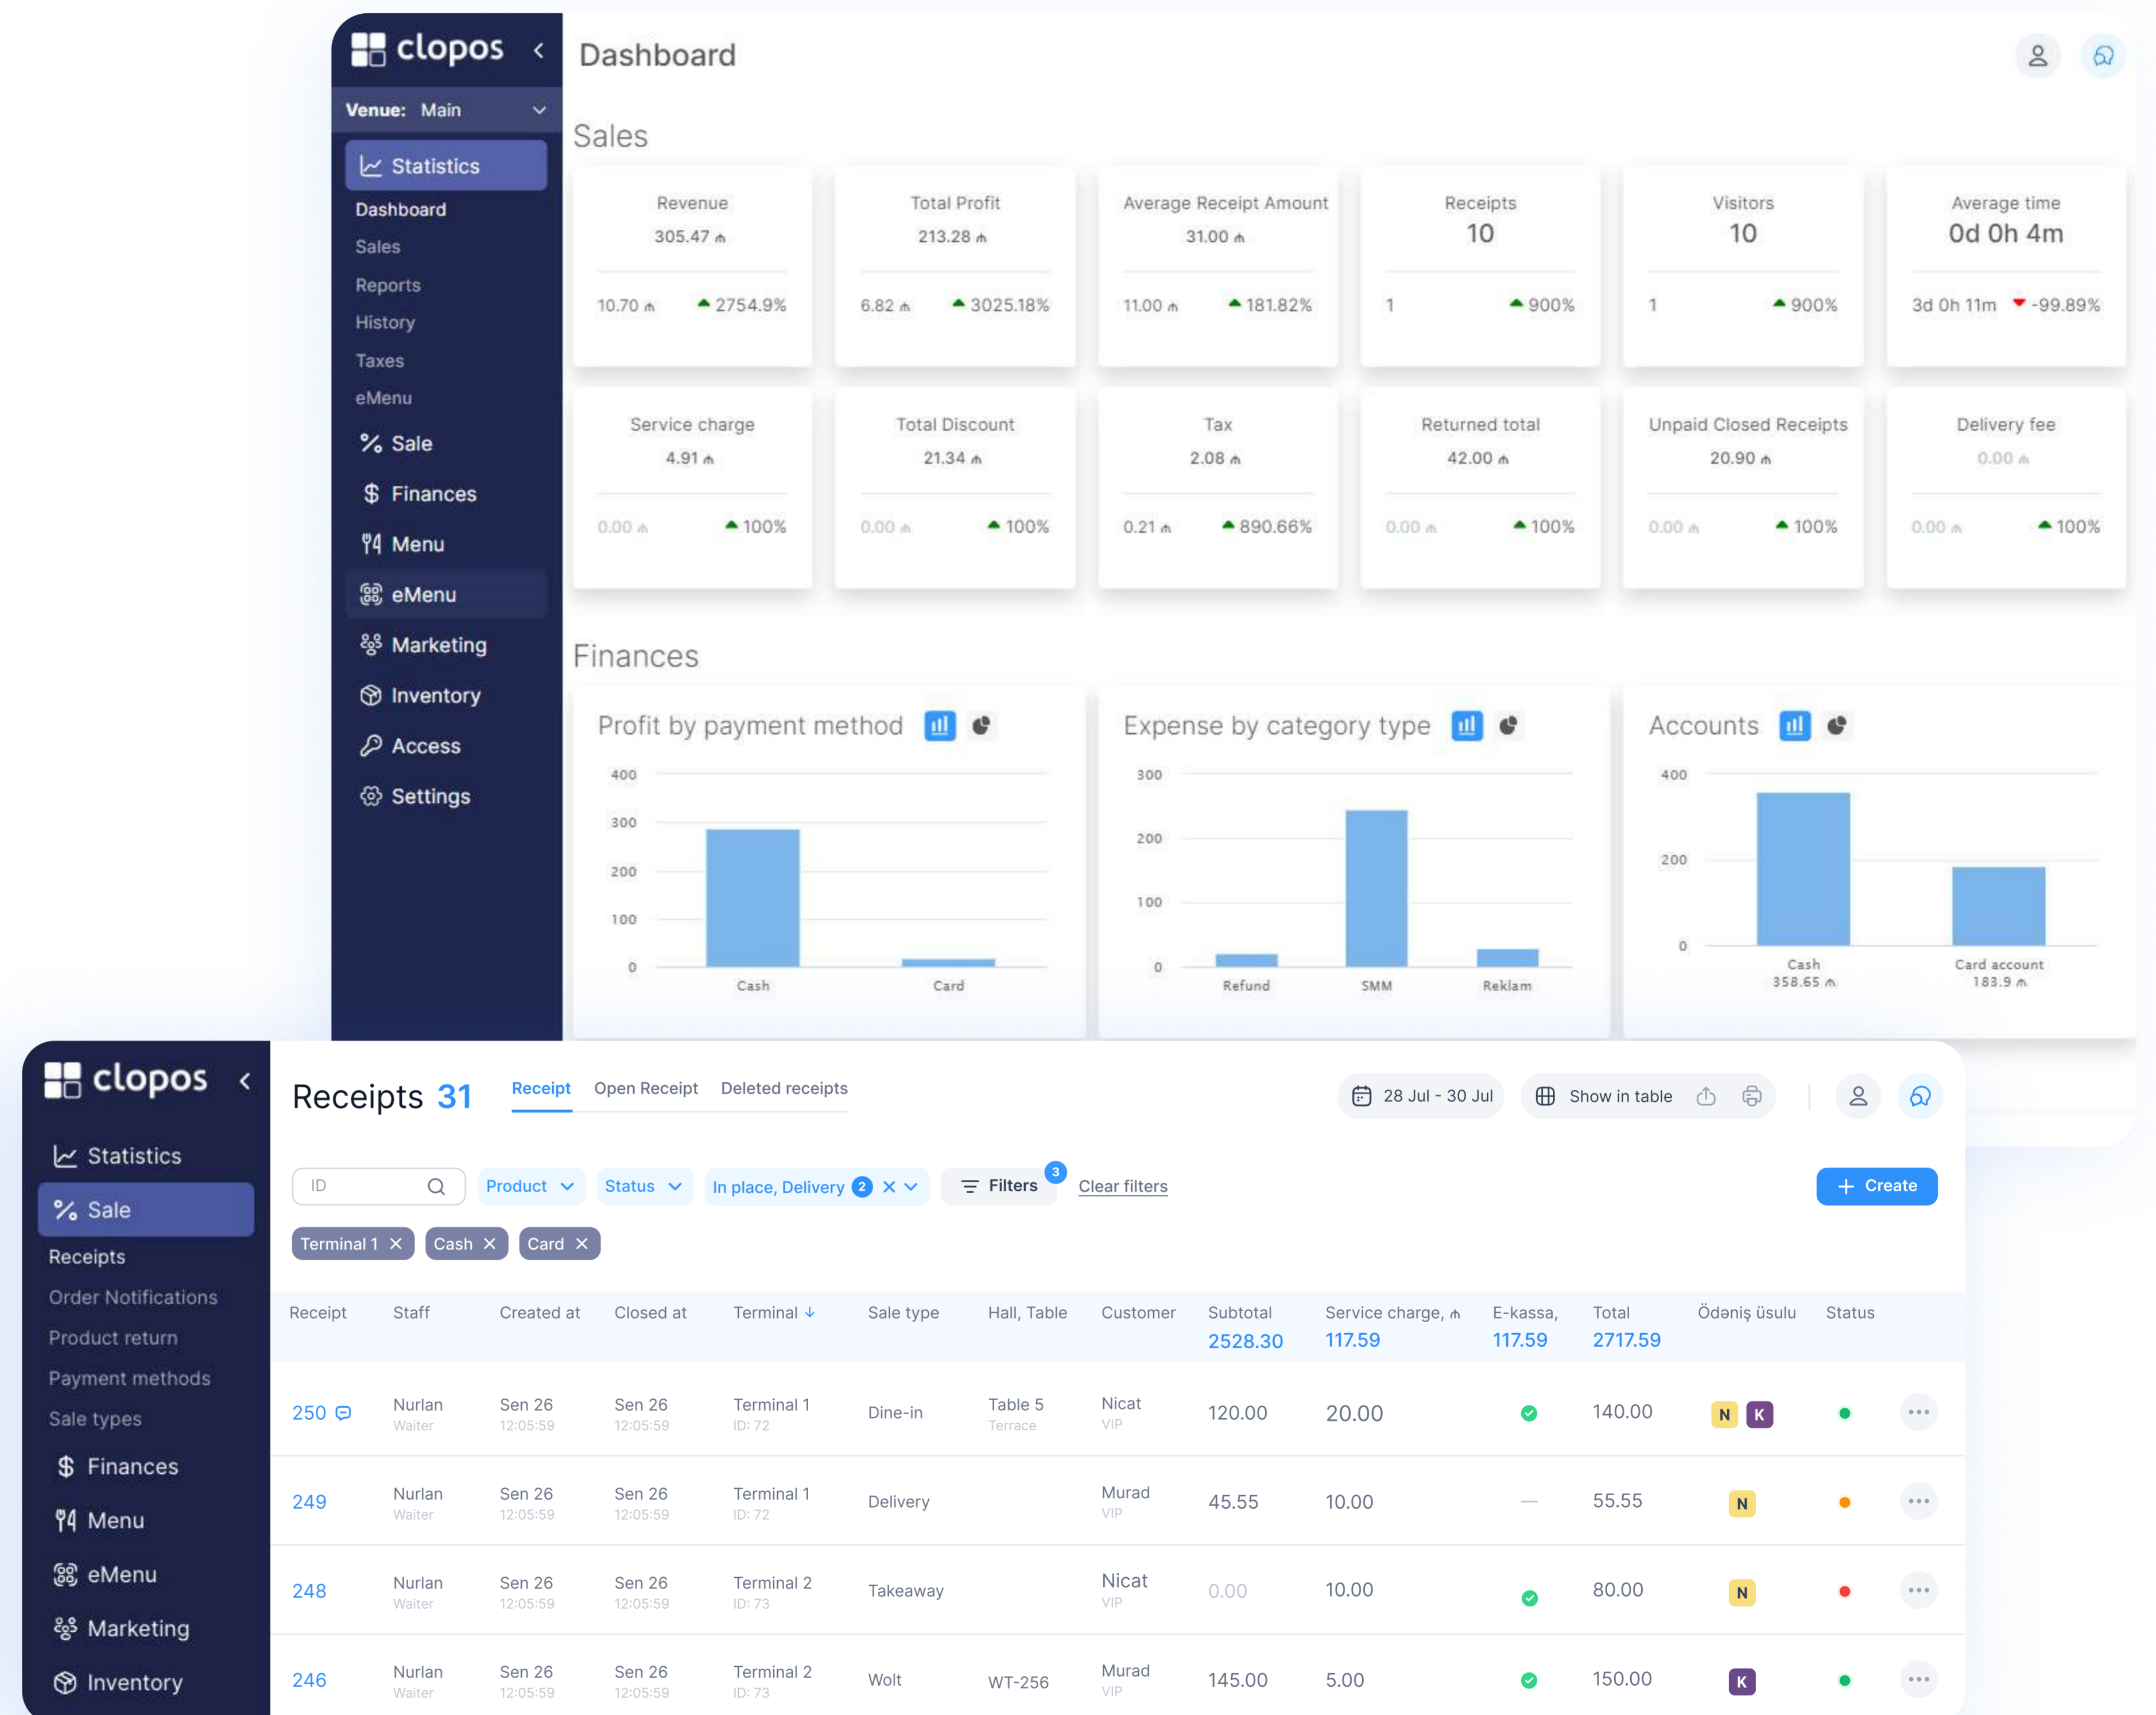

## Multiple choice modifier

Adding multiple modifiers such as choosing from a list of toppings or sauces as a way of offering wider range of options to meet customers' needs

# Valuable insights into operations

Comparing current figures with historical data, monitoring performance, and making adjustments accordingly takes just minutes with automatic statistical analysis

- ✓ A detailed understanding of trends, patterns, and correlations that may not be immediately apparent
- ✓ Informed decisions about resource allocation, process improvements, and other aspects of businesses
- ✓ Enhanced overall performance of businesses with data-driven adjustments

# Keeping an eye on inventory levels

Inventory checking process is very simplified in the system. With this feature, responsible staff can physically count products and compare the results to the inventory data in the system. Thereby keep an accurate record of stock levels and prevent stock outs or overstocking situations

# Efficient management of all branches

Even if businesses have more than one branch, management is still convenient! By monitoring the activity of all branches from the same system, business owners and managers can adjust operations either synchronously or separately for each branch

- ✓ Flexibility in managing all branches at once or separately
- ✓ Consistent application of franchising rules across all branches
- ✓ Unified CRM and marketing campaigns
- ✓ Centralized menu, inventory, and financial management

# Management on-the-go

Even when far away from the workplace, business managers can easily monitor all operations and pick up where they have left off to stay on top of their business at all times

## Transaction tracking

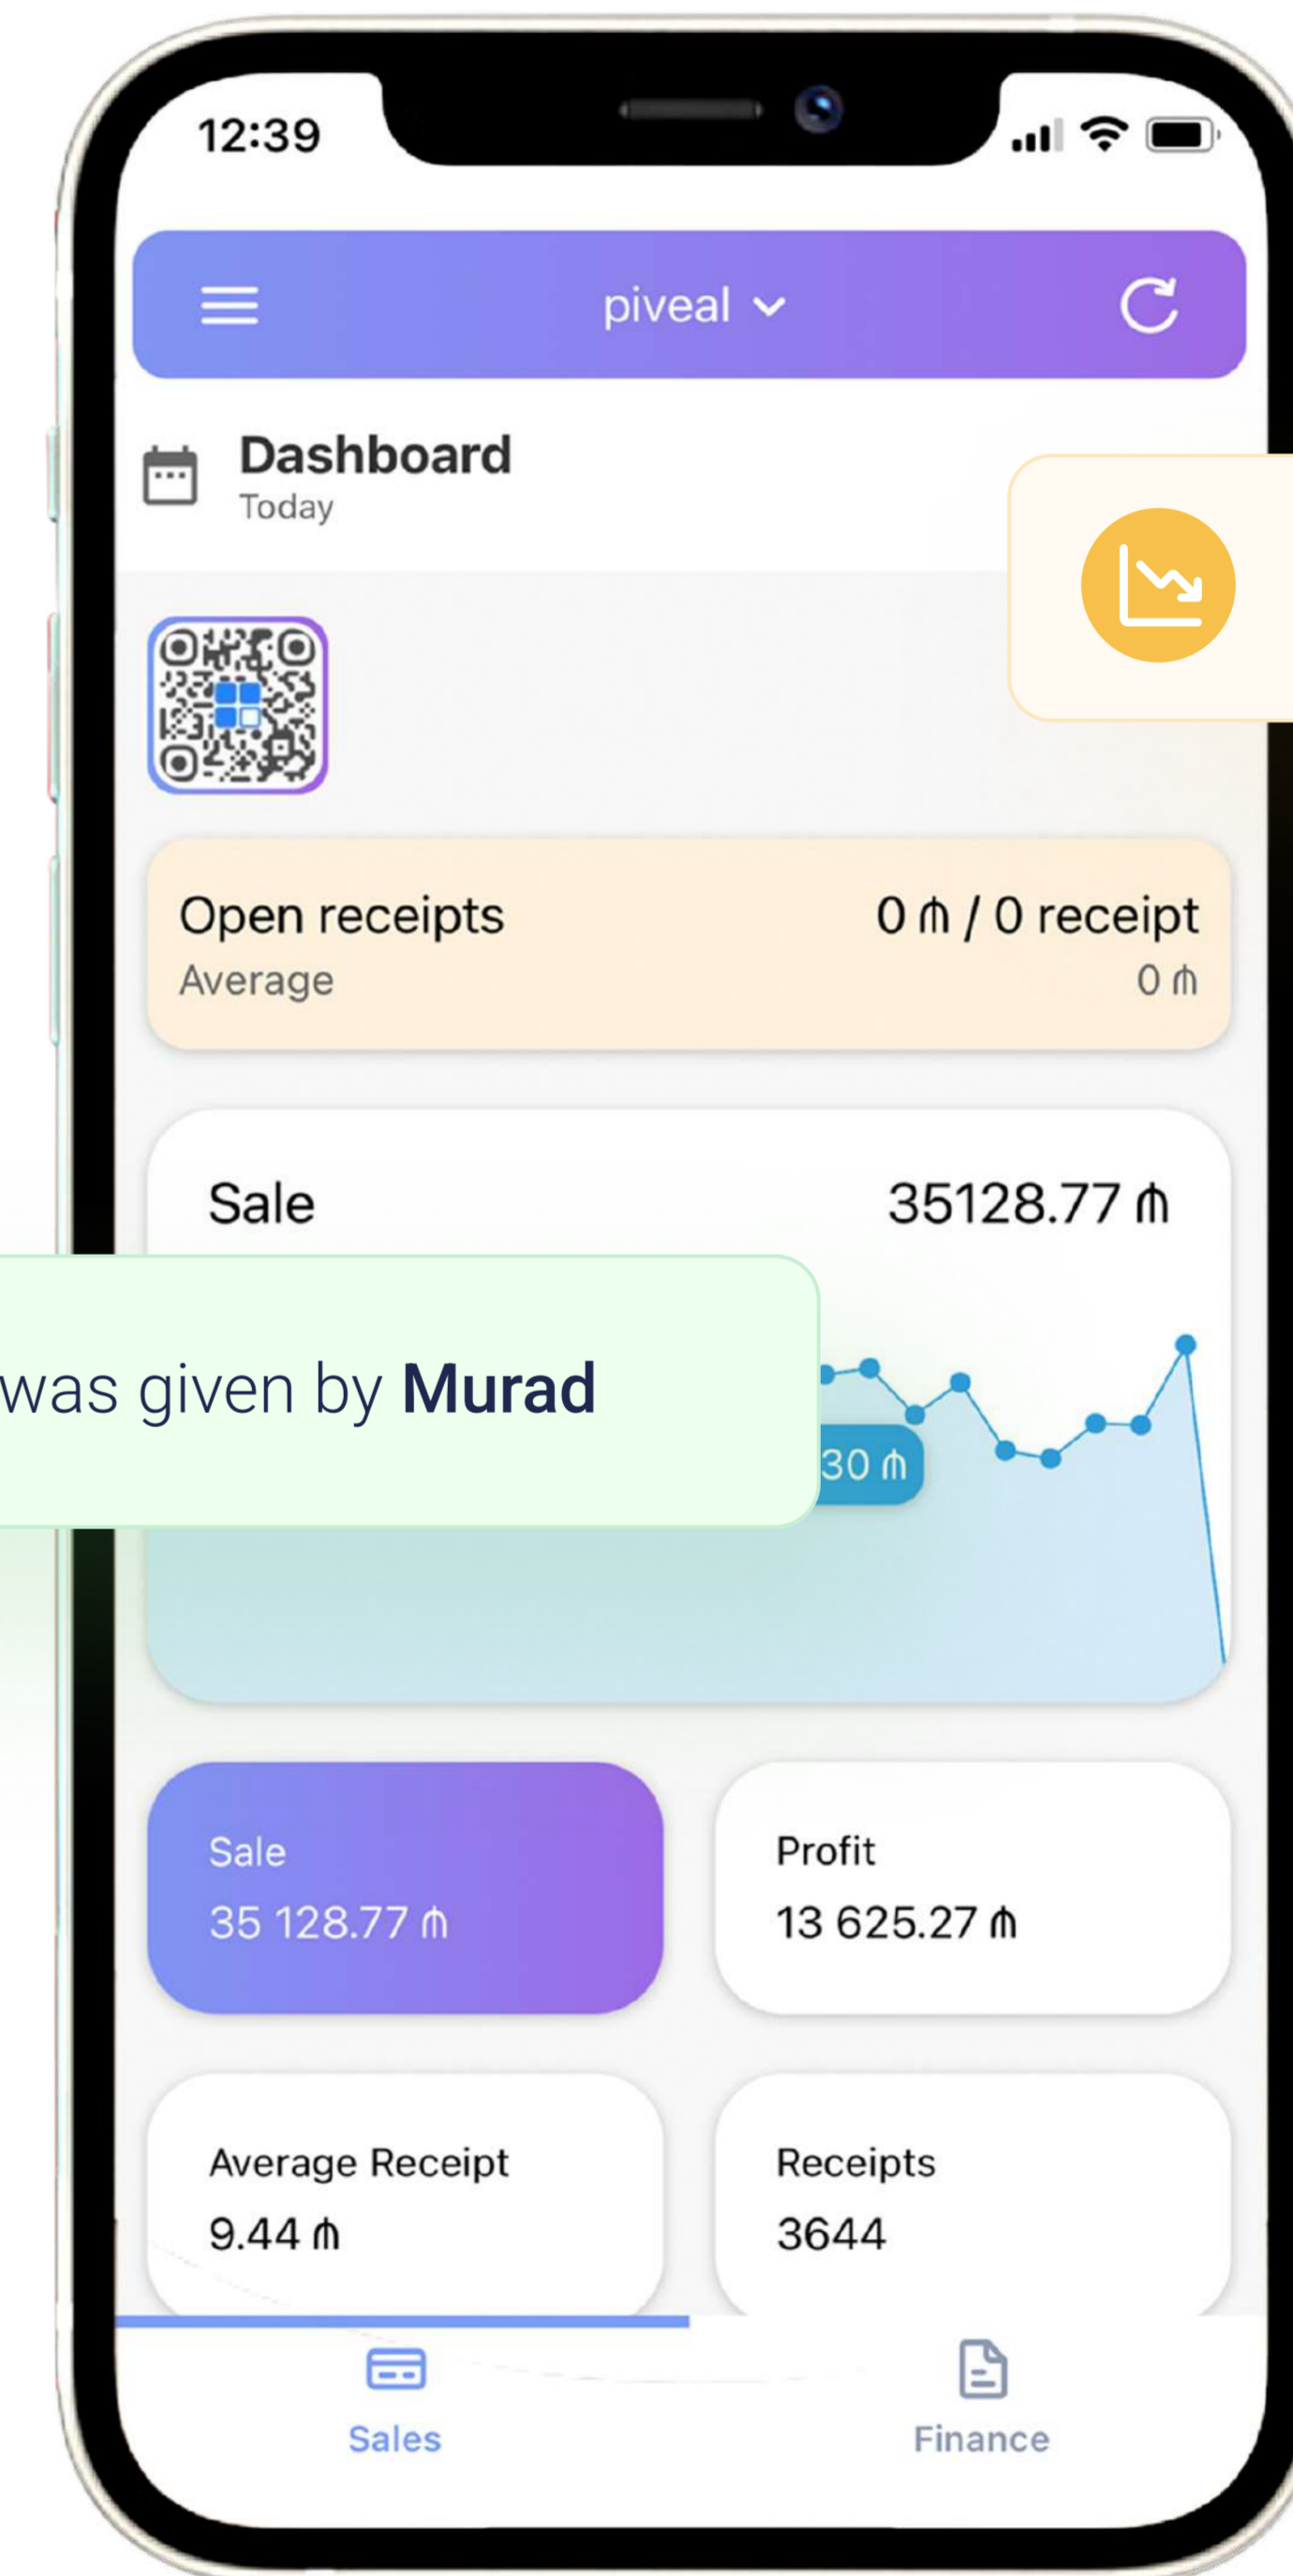

Allows to monitor all transactions at any time and from anywhere, providing real-time insights into business operations

## Custom notifications

Provides timely updates and alerts on important events to ensure managers never miss a beat

## Financial statistics

Provides critical insights into key financial metrics such as cash in the register, guests count, income, expenses, and more

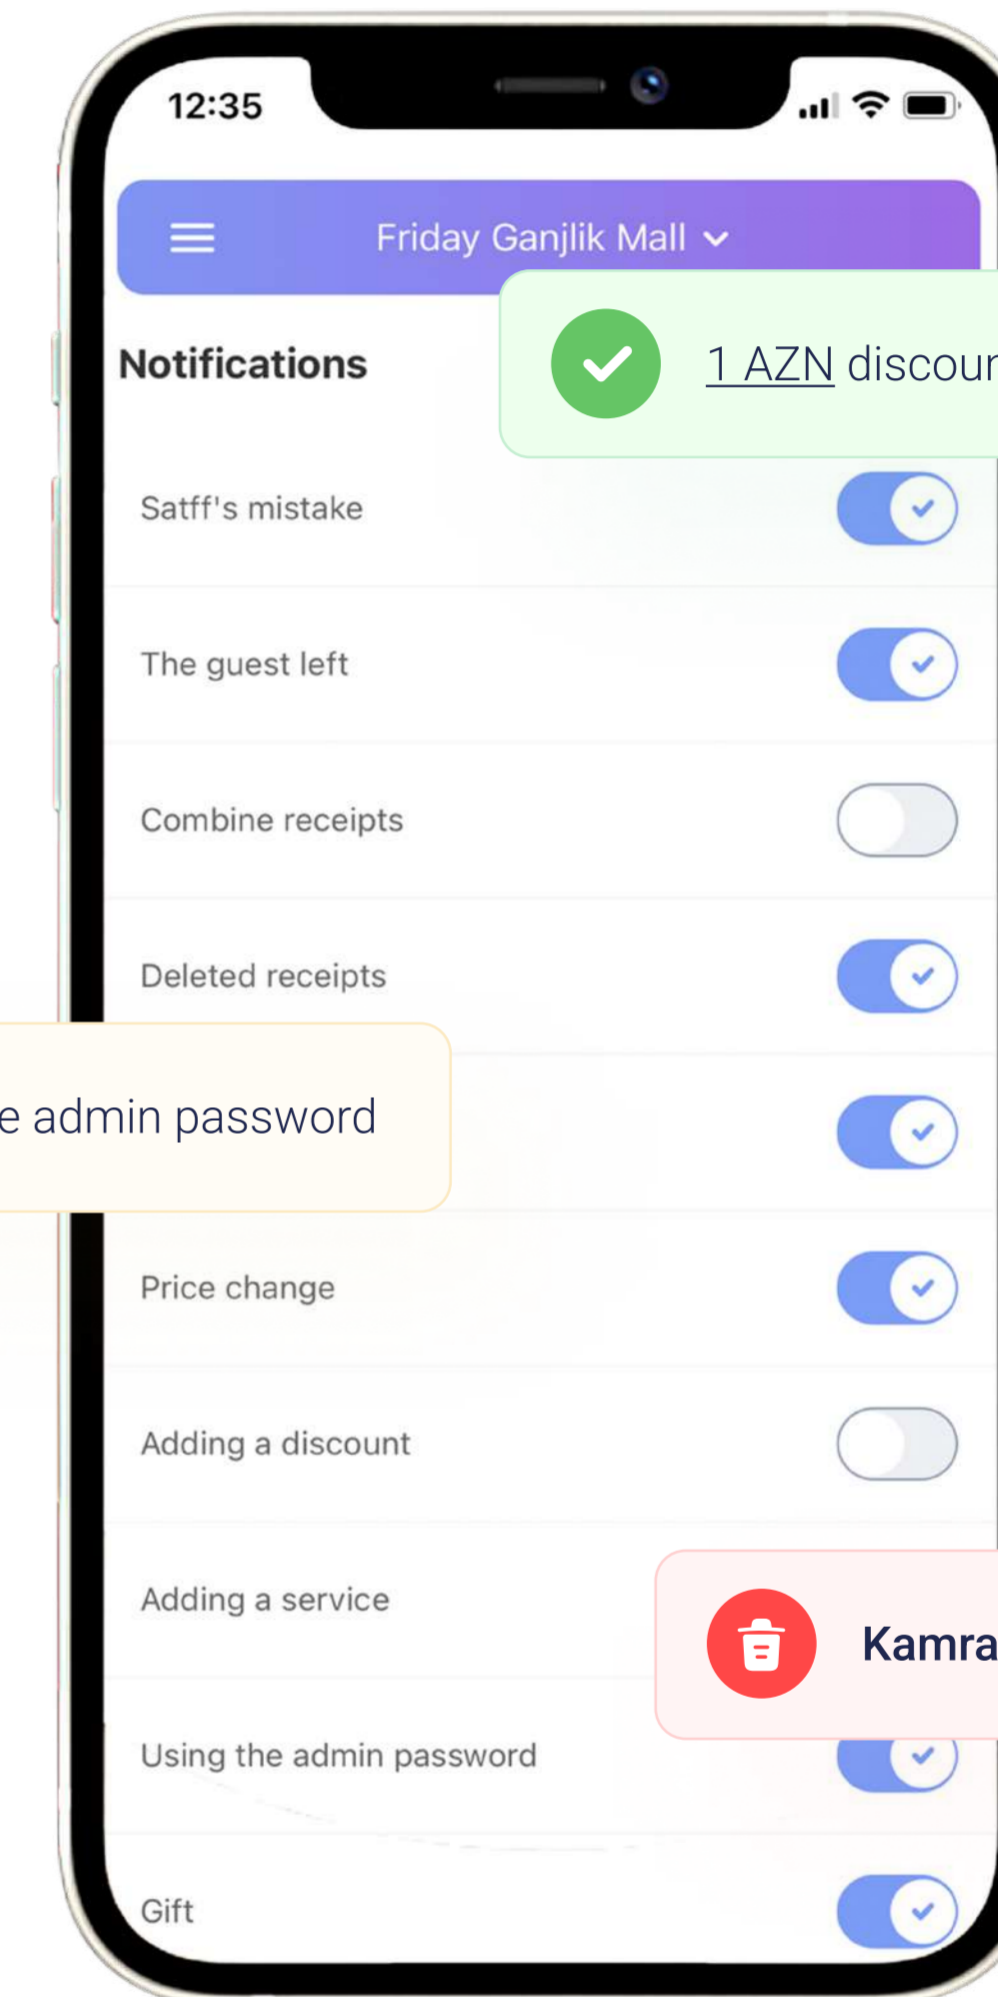

# Staying on top off the business

## Notifications

To receive instant notifications on various activities, including new or canceled orders, low inventory levels, or employee check-in and check-out hours, notifications can be enabled

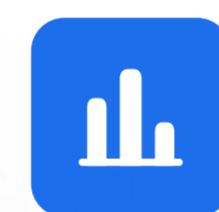

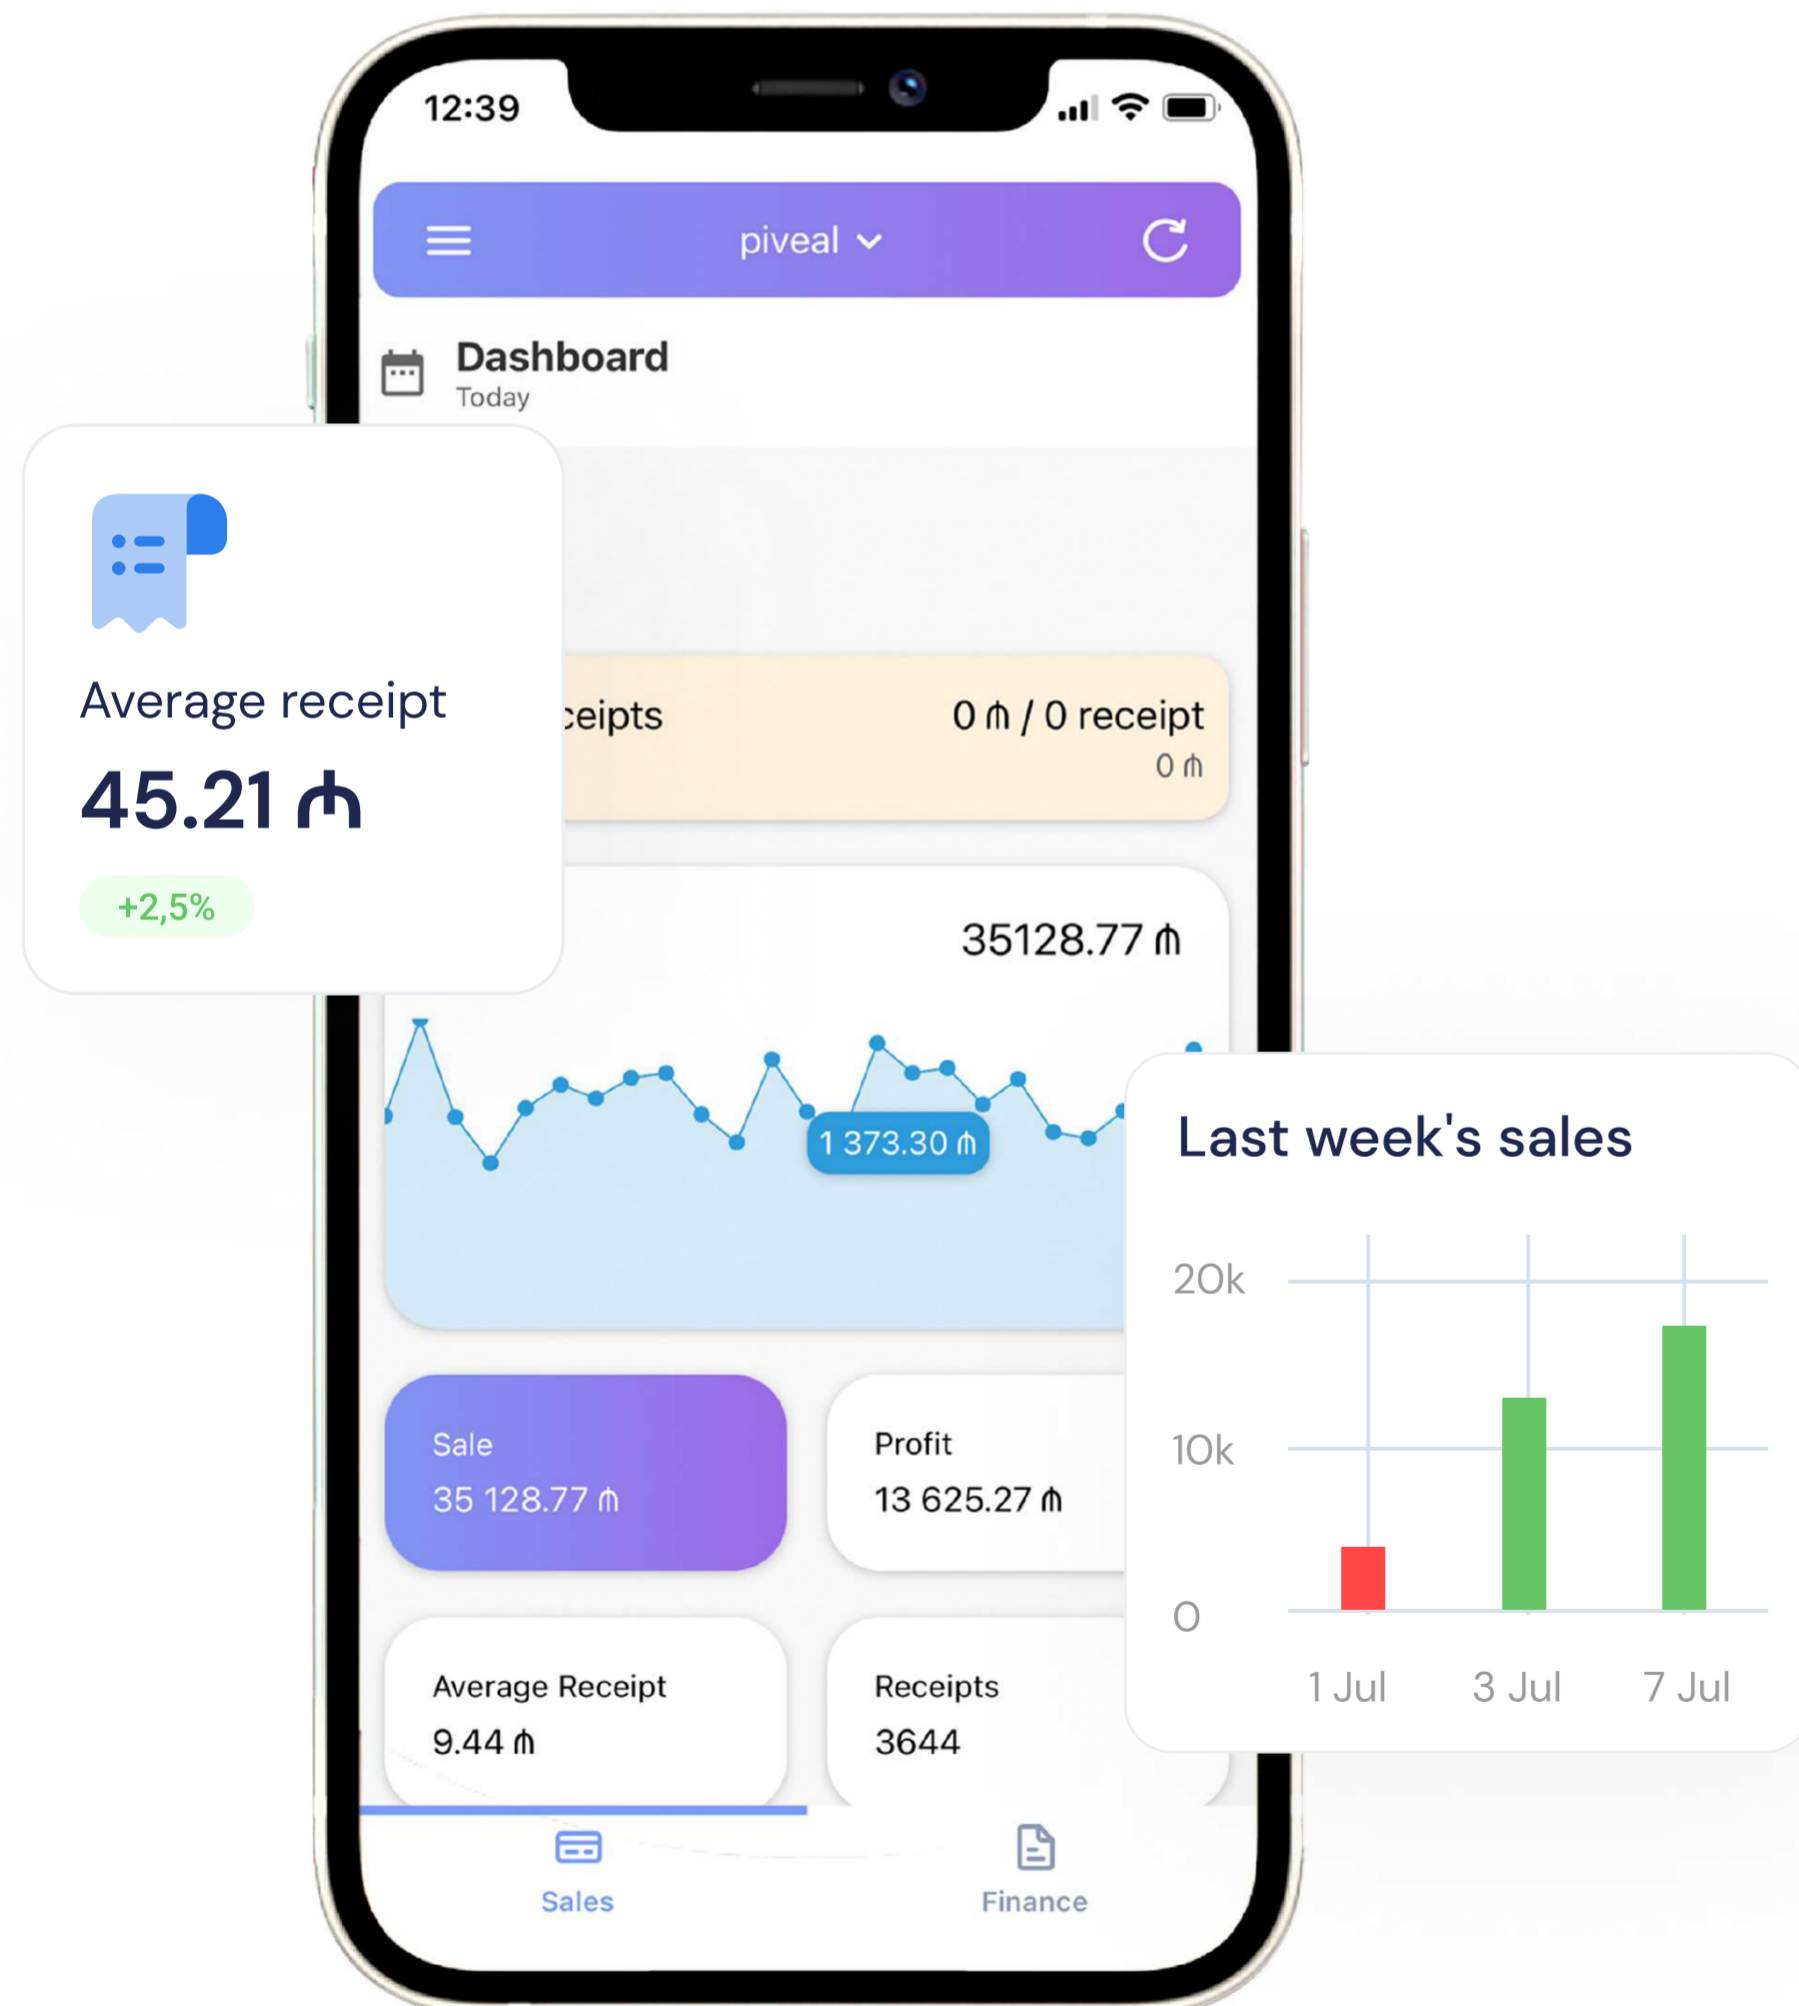

This way, business owners can stay informed about business operations even without opening the application and promptly intervene if necessary

✓ 1 AZN discount was given by Murad

🔑 Nijat used the admin password

🗑️ Kamran deleted the receipt

## Business statistics

Whether at home, on vacation, or in the office, business owners can stay connected to their business and monitor the performance with ease

With our POS system's powerful statistics feature, they gain critical insights into business performance and make informed decisions even on the go. Our mobile app provides an intuitive interface that allows for easy navigation through key metrics such as cash in the register, guest count, income, expenses, and more

# Contactless service via QR menu

Digital menus let customers access menu and place orders from their phones by using a QR code

## Time and effort saving

Customers get to order directly from the comfort of their seats

## Boost in sales

Seeing the delicious images of products increases appetites as well as sales

## Up-to-date Menus

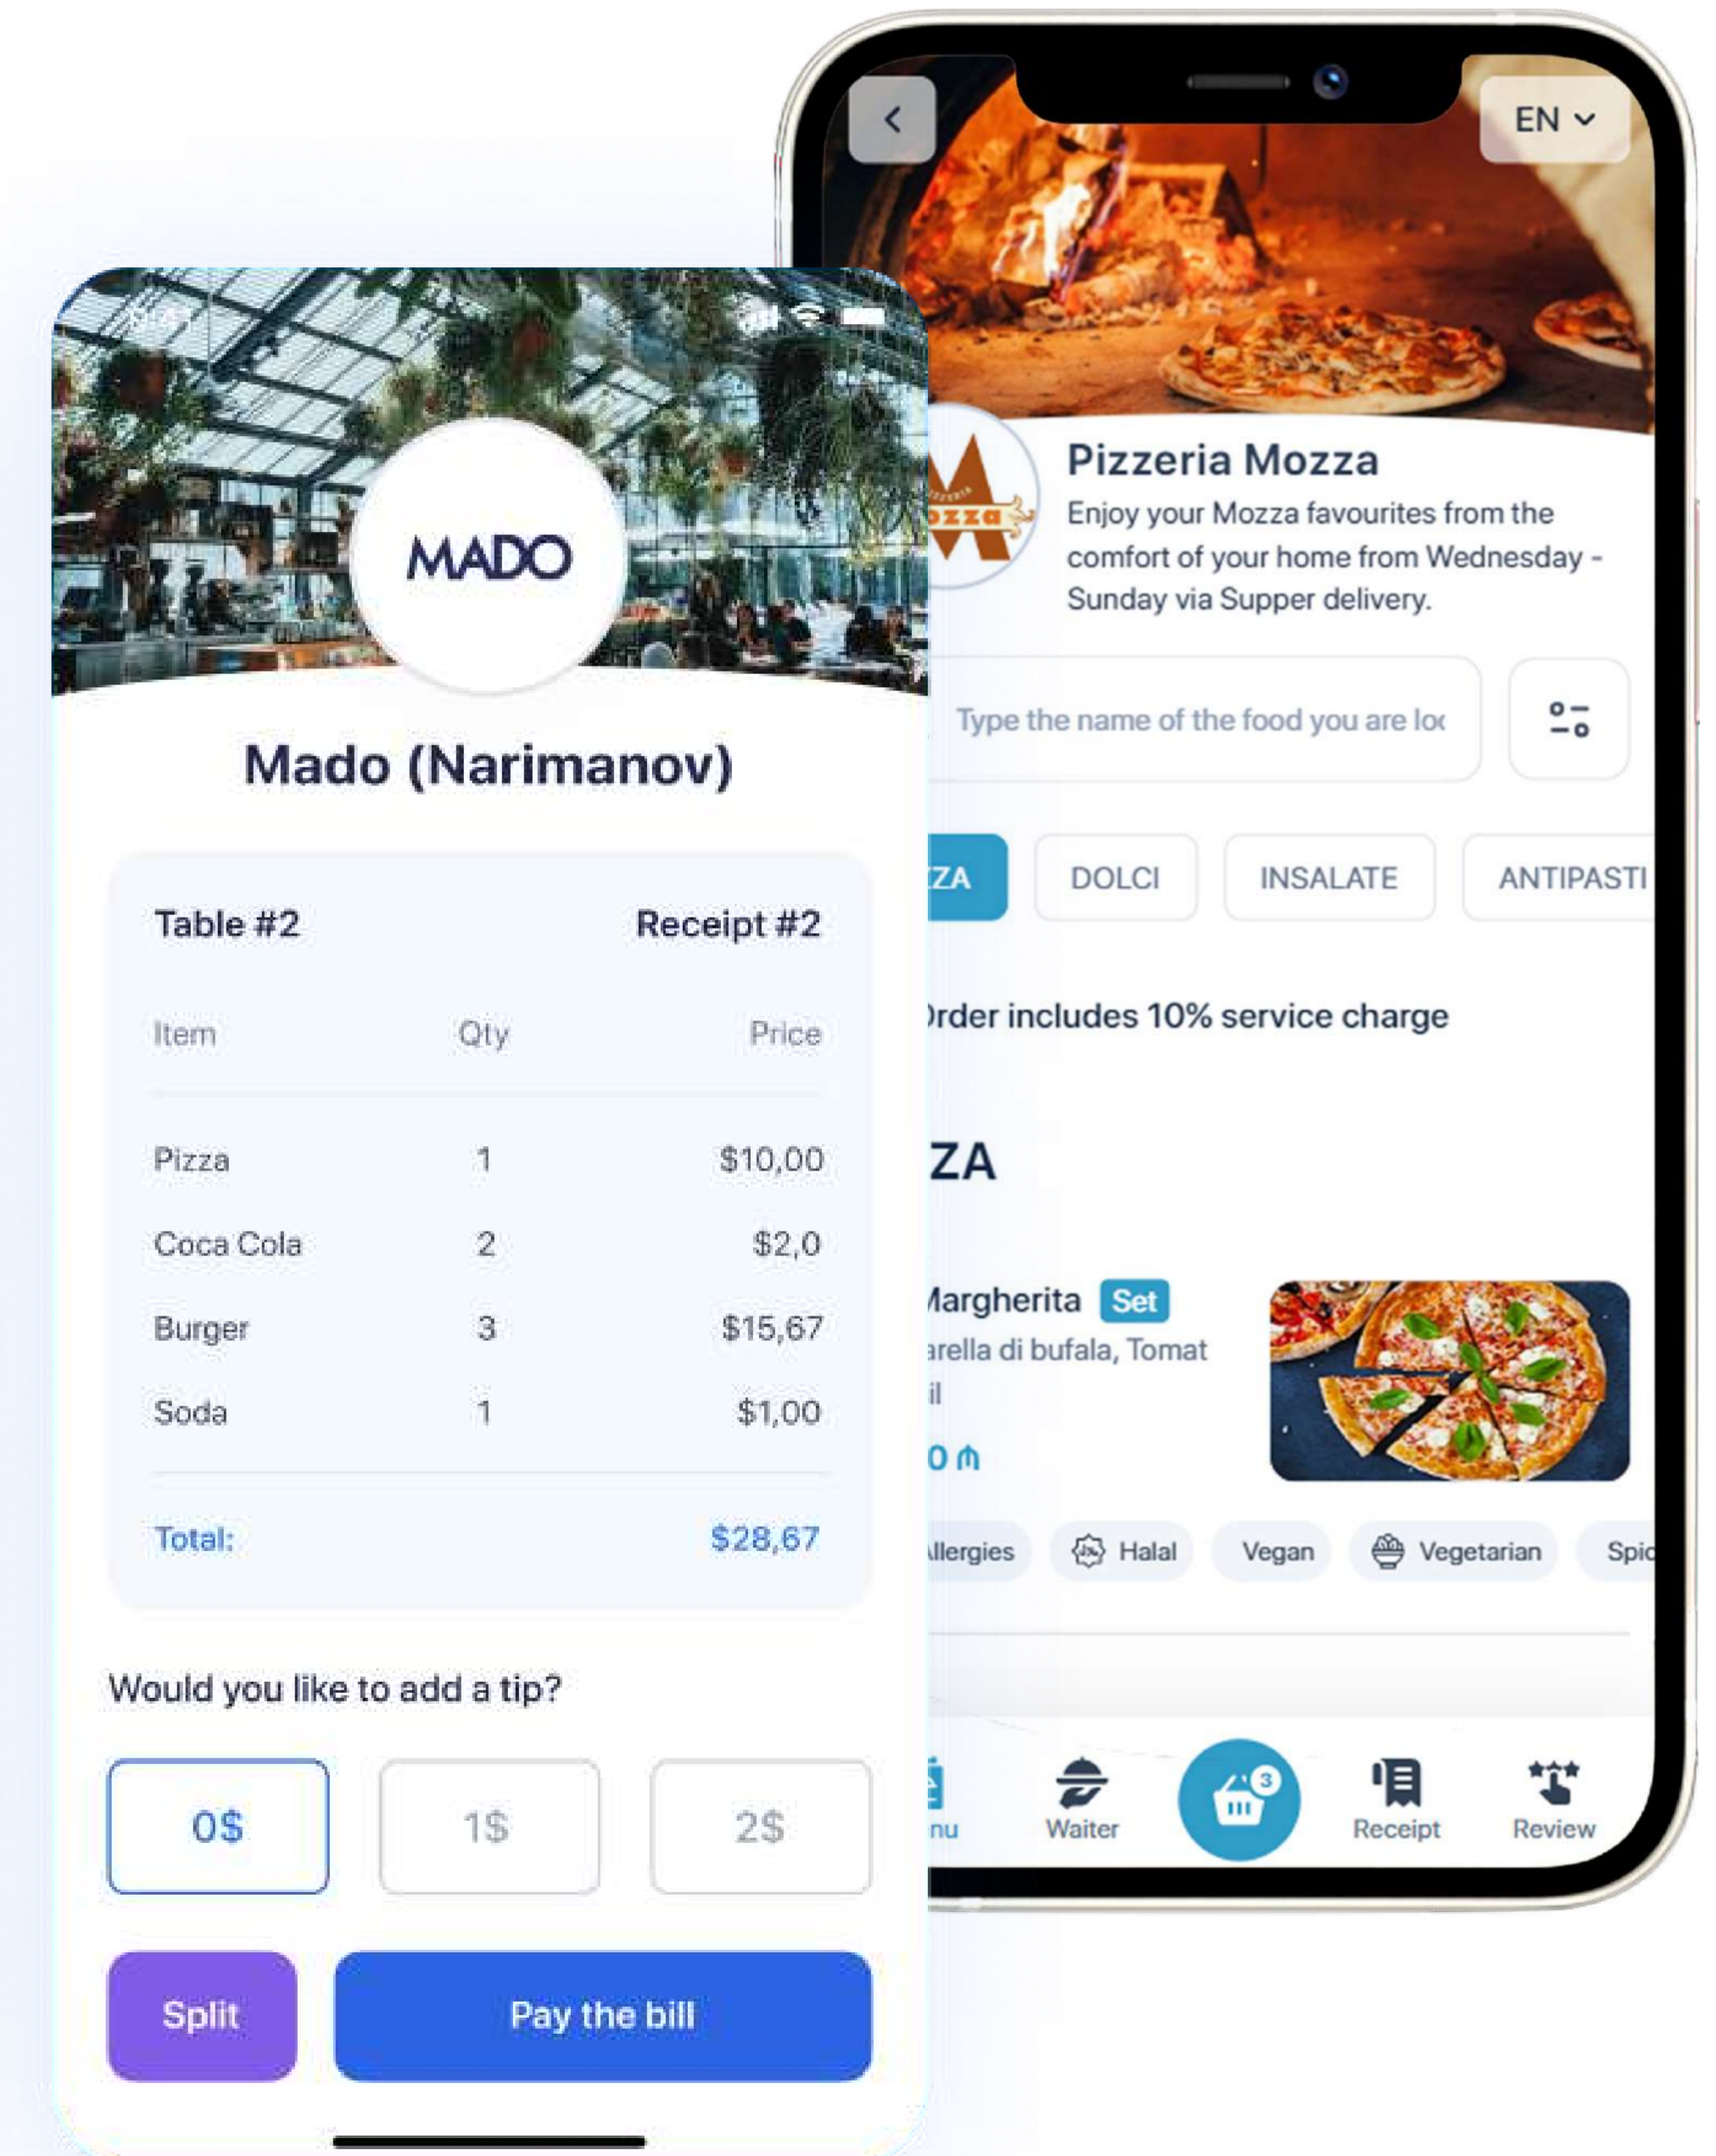

Menus can easily be updated as soon as any changes happen

**By 20%**  
Increase in sales

**By 30%**  
Decrease in costs

**By 30%**  
More satisfied customers

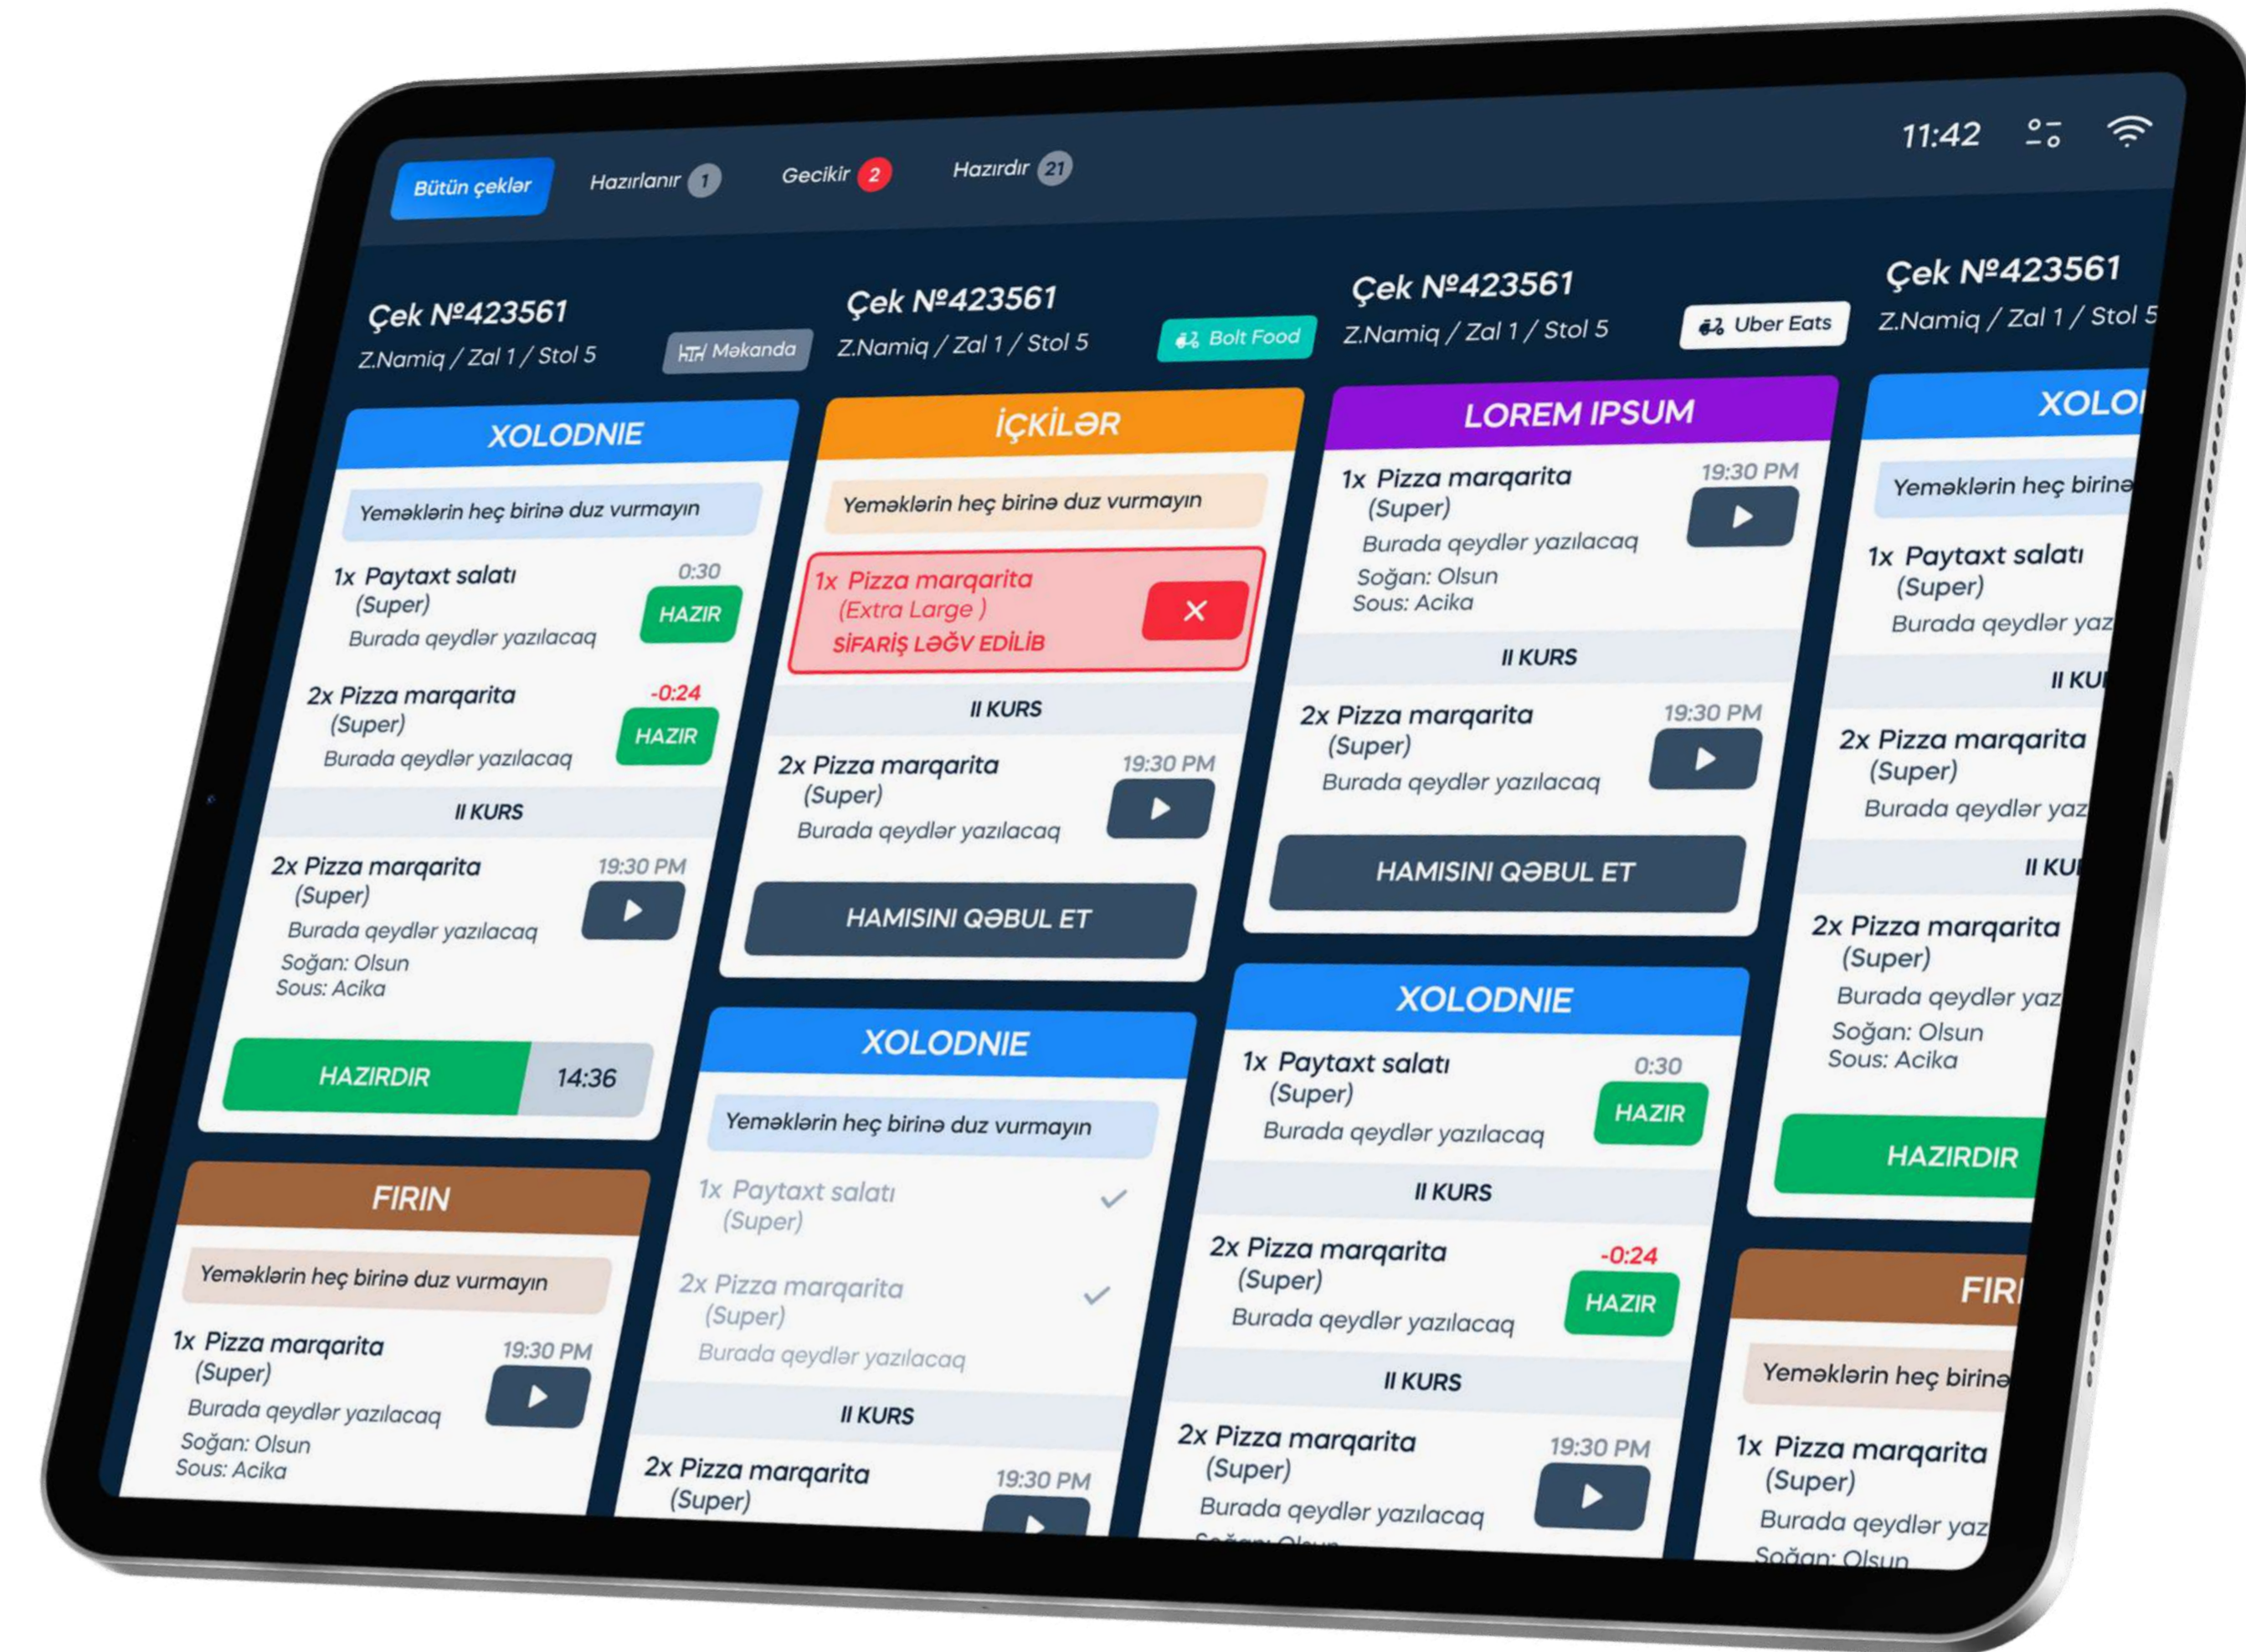

**By 100%**  
Secure process

# Enhanced kitchen performance

Empowering staff's performance by digitizing processes and streamlining kitchen's workflow

- ✓ **Efficient**  
Reduces the amount of time kitchen staff spend as well as need for paper tickets
- ✓ **Accurate**  
Helps reduce errors in order preparation with instant notifications and legible orders
- ✓ **Informative**  
Provides valuable analytics and insights into kitchen performance

### ⚡ Reduced mistakes

Improved communication between front-of-house and back-of-house staff helps reduce errors and misunderstandings, resulting in accurate and timely order preparation

### 👤 Satisfied customers

Faster order processing and increased accuracy can delight customers with timely and accurate meals, leading to increased loyalty and positive reviews for businesses

# Hassle-free and rapid process

- ✓ Waiters take customers' orders and send them directly to the kitchen screen

**Kitchen** [Write a comment](#)

INOVATA

# What do our customers say about us?

We gather and value all of our customers' feedback. Here are just a few of them

**Turkan Eyyubova**

Founder of Street9bar

“ Clopos has significantly simplified our work. It is easy to use and rich in necessary functions, providing us with all the tools we need to manage our business efficiently. The technical support team is also quick to respond to any questions or problems that we encounter. ”

**Sabutay Mammadzada**

Founder of Meatadore

“ Clopos has been an invaluable tool for our business across all three branches, as well as for our virtual restaurant. Its speed and efficiency have been especially helpful during busy events. We are grateful for the partnership we have established with Clopos, and highly recommend it to any restaurant looking to improve their customer experience. ”

**Said Mammadov**

Administrator at Gelateca

“ We have been using Clopos since the first day we started working. The features provided by Clopos for both accountability and data analysis have made our work quite easier. We hope that our cooperation will develop further as Clopos develops the software. ”

**Turkhan Alizada**

Founder of Khirtakhirt & Ferma Art

“ Clopos employees have proven themselves to be professionals at all levels, from product development to customer service. All five of our branches are already using this system. The team's readiness to meet customer needs, listen to feedback, and continuously improve their product is the company's top priority. ”
